I support HCM designation for the Hannah Carter Japanese Garden

Daniel Will-Harris

To whom it may concern:

There are very few places in the *world*, much less *Los Angeles*, that can boast a Japanese Garden of the exquisite quality of the Hannah Carter Japanese Garden.

That, alone, should qualify this garden for HCM status.

But it *is* in Los Angeles, and it *can* provide a unique respite for Angelinos--as it did, successfully for many years.

Los Angeles cannot afford to lose this one-of-a-kind cultural gem. Neither can the world.

Please help preserve this important place by giving it HCM status.

Thank you.
