Amendment No. 1 to Contract No. 7422 will increase the amount of funds available for the original contractual period by \$4,310,000. Northwest successfully completed the steps required to demonstrate its Good Faith Effort (GFE) to reach out to available SBE/DVBE/MBE/WBE/OBE Subcontracting participation firms. As a result, Northwest proposed to subcontract 18.80 percent of the contract amount to various M/WBE firms to perform saw cutting, trucking, asphalt and concrete paving, provide pipe materials, perform environmental impact assessment, and provide operated cranes. The tables shown below reflect Northwest's subcontracting participation record through September 2016.

As a project control measure, LADWP's Contract Administrator will continue to review and monitor the contract to ensure that Northwest utilizes listed MBE and WBE subcontractors to the maximum extent possible.
