Dear Planning and Land Use Management Committee,

Los Angeles is witnessing new building growth and while that is much needed, we are also witnessing our history being erased. When you erase history, you remove the story and Los Angeles is a city built on stories of the past. Those stories are reflected not only in the generations of people living here but in the buildings throughout our city. One such building with rich history is LA Burger, originally Orange Julius located at 6001 West Pico Blvd. This small gem is unique in so many ways. The hope is that it will be listed on the Historic-Cultural Monuments and find a new home.

The history of Los Angeles deserves to be preserved while still making way for new development.
PLEASE SUPPORT ADDING ORANGE JULIUS TO THE HISTORIC-CULTURAL MONUMENTS.

Thank you,

Debbie Gaughan
