#### Impact Information

Date: 02/11/2019

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 17-0447

Agenda Date:

Item Number:

Summary: Whereas neighborhood drilling is incompatible with public health and has no place near sensitive land uses such as homes, schools, churches or daycare facilities; and studies show that a buffer of at least 2,500 feet between active oil wells and these sensitive land uses is necessary to protect community health from oil extraction; Whereas the City of Los Angeles is a leader at the forefront of enacting policies to protect the environment and address global climate change, including the Sustainability City pLAN requiring dramatic reductions in GHG emissions with an 80% GHG reduction target by 2050; Whereas the City of Los Angeles has a duty to protect the health and safety of its residents and can use its power over land use and oil operations to protect those residents in this instance; The Palms Neighborhood Council resolves to call on the City of Los Angeles, and the Los Angeles City Council specifically to establish a human health and safety buffer that prohibits oil drilling within one mile of sensitive land uses including homes, schools, early childhood centers, senior centers, hospitals and medical clinics, parks, etc.
