The building proposed for 12444 Venice Bl is out of place compared to other structures in our neighborhood. Please limit building height to 45 feet that I understand to be the height standard for this zone.

Thank you

Robert Gallion, 90066

proposed development at 12444 Venice (DIR-2016-304-DB-SPR)

Hello,

I'm a neighbor of this proposed development, living a few blocks away. I would like you to do anything possible to mitigate the impact this development will have on my neighborhood, including limiting its height. I think the building is way too tall for the neighborhood. It will tower over 2 and 3 story buildings that surround it. In addition, traffic is already horrible on Venice Blvd.

Thank you.
