transfer 88th/Vermont city-owned properties with conditions of approval being that venture must guide activities towards target of affordable housing.

Yes. This area could use infrastructure upgrades. Make sure affordable housing is not just density bonuses though. I want to see some projects that help tackle the price issue for the entire building. I really want to move towards getting us lower rents. But I also understand the desire for luxury spaces to accommodate luxury people. I know there's some way to accomplish both happily. Maybe separately ?
