Good Day,

I just learned on Next Door that the City Council unanimously voted to rename Rodeo Road to Obama Boulevard this morning.

It think it is a disservice to the community to go through the motions to ask residents to offer their respective opinions on a project the City of Council has already agreed upon.

The project would be more appropriate for President's Row than Leimert Park.

Since President Obama's departure in January 2017, he has not used his political influence to assist the residence of Los Angeles to combat some of the broader issues, like homelessness. The City of Los Angeles has been more than generous with the future plans to rename Highway 134 after him. In addition, a plaque was mounted where Barack Obama lived as an Occidental College student in Pasadena. These areas are much more relevant to his history than Leimert Park.

If the City Council is really interested in the opinions of South Los Angeles residents, then, the Council should provide more opportunities to speak on issues where our voices count.

Cordially,

O. Randolph

Mr. Espinosa: My name is Arturo M. Chaparro and I have lived on Rodeo rd. For 30 Yrs. and I do not want Rodeo Rd to be changed to Obama Blvd. I would rather have those monies better spent trimming and treating our Diseased trees on Rodeo Rd, having parking enforcement enforce the street parking from 1 to 3 pm, so L.A.'s street cleaners can sweep the streets which by the way is NOT being done. Isn't that someone's job??? I have called and tried to have our trees trimmed with no help from that office. Same with parking enforcement, they are not consistent. Oh and by the way isn't that why as a home owner I pay taxes? I guess I should just be grateful the city picking up my trash. Funny you think I would see a little more of my hard tax money at work? Why can't we have clean streets and trimmed DISEASED-FREE trees first before even considering changing Rodeo Rd. to Obama Blvd. Not to mention the nightmare I have to go through contacting Establishments because of the Street Change. Let Obamas Legacy Live on. Sure! I don't have anything against that, But what about cleaner streets and treating your diseased trees that haven't been trimmed and maintained. Thank you but NO Thank you on Obama Blvd and Yes on Keeping RODEO RD. Thank you Mr. Espinosa I hope this does Not Fall on Deaf ears.

Sincerely. A member of the Cherrywood Block Club. Arturo M. Chaparro.
