Adam and Hugo,

As a resident of Solano Canyon and Dodger Stadium neighbor, I am in support of updating the Dodger Stadium Traffic Study for the following reasons:

- a. Technology has changed the way we commute and travel and has significantly impacted communities surround the stadium.
- b. Ride sharing has also impacted how guests travel to and from the stadium.
- c. Congestion in Solano Canyon on Academy and Solano is impacting the neighborhood and fans.
- d. The plan is about 10 years old and needs updating as to DOT assignments, street closures and other methods to control traffic.
- e. Exploring other methods of public transportation.

Thank you,
