RE: ITEM 17-0728 regarding updating the traffic plan for Dodger Stadium on game days.

Transportation Committee Members,

I regret that I may not be able to attend the Special Meeting of the Transportation Committee on Wednesday, August 9th, in person, but I welcome this opportunity to submit my comments via email.

I want to thank Councilmember Cedillo for submitting Item 17-0728, a motion to develop an updated Traffic Plan for Dodger Stadium. Members of neighboring communities have suffered the impact of an ever-increasing traffic flow on residential streets on game days or for other special events, which has had a negative impact on the quality of life in these communities — our communities. It has become critical that an updated Traffic Plan be adopted.

The essential point is that traffic flow to, and from, Dodger Stadium must be directed onto those streets and freeways that are designated for such traffic and away from residential streets. This problem has been exacerbated by online traffic applications such as Waze and Google Maps.

As a life long member of the community of Solano Canyon, I can confirm our quality of life was affected greatly once the online applications directed traffic through our community of Solano Canyon, and although signs direct traffic elsewhere, the cars will drive past the signs, past the DOT personnel and into our community and our very narrow streets. Our community becomes congested with bumper to bumper traffic for 2-3 hours on game days. Now, with the addition of the concerts and the special events, our lives are affected beyond game season. Sometimes, to travel a block can take 15-20 minutes.

Please, I earnestly and respectfully ask that the Transportation Committee immediately take up this issue, and I look forward to a speedy and thoughtful resolution to the problem.

Respectfully submitted,

Lydia Moreno
