## SUMMARY

Between 2007 and 2012, grant funds from the U.S. Department of Health and Human Services enabled Los Angeles County Department of Public Health (LACDPH) to partner with the Los Angeles Fire Department (LAFD) to implement a syndromic surveillance program in the City of Los Angeles (City) (C-112458/CF#07-2144, C-122234/CF#12-0117). Through the use of syndromic surveillance software from FirstWatch Solutions, Inc. (FirstWatch), the program served as an early warning system for the detection of bio-hazards and bio-terrorist events by collecting and analyzing statistical data on health trends in the Los Angeles Area. This program collected and processed LAFD 9-1-1 Emergency Medical Services incident data in real time from the Computer Aided Dispatch system (CAD) to determine if appropriate triggers had been activated and alert key authorized personnel accordingly.

Based on the successful implementation and performance of the syndromic surveillance system over this five year period, the LAFD requested and received approval to continue the program. On February 21, 2013, the Mayor and City Council approved LAFD to receive grant funds from LACDPH in the annual amount of \$67,617 for a period of five years from FY 2012-13 through FY 2016-17, subject to the availability of funds (CF #13-0117). At the same time, the LAFD was also granted permission to execute a sole-source contract with FirstWatch for syndromic surveillance software licensing and maintenance services mirroring the same term and amount.

In 2015, the Board of Fire Commissioners, Mayor and City Council (BFC#15-135 and CF #13-0117-S1) approved Agreement PH-002851 (City Agreement C-126916) accepting grant funds from LACDPH and Agreement C-127484 with FirstWatch

continuing services related to implementing the syndromic surveillance software for the term of January 1, 2016 through June 30, 2017 for an amount not to exceed \$101,426.

In 2016, adjustments made to the LAFD's CAD system, resulted in a suspension in syndromic surveillance services. As a courtesy to LAFD and LACDPH, FirstWatch offered to offset lost time by continuing to provide services beyond June 30, 2017 expiration date for no additional fee. Subsequently, all parties agreed to amend the expiration date on their respective agreements through March 31, 2018 for no additional cost.

Provided for the Commission's consideration are the following:

- First Amendment to LA County Agreement PH-0002851-1 (City Agreement C-126916) amending the term to January 1, 2016 through March 31, 2018 for a total award amount not to exceed \$101,426.
- First Supplemental Agreement to Agreement C-127484 between the LAFD and FirstWatch Solutions, Inc. amending the term to January 1, 2016 through March 31, 2018 for syndromic surveillance software for total compensation not to exceed \$101,426.

## **RECOMMENDATIONS**

That the Board:

1. Approve Los Angeles County Department of Public Health Amendment Number 1 to Agreement PH-002851-1 (City Agreement No. C-126916).
2. Approve the First Supplemental Agreement C-127484 with FirstWatch Solutions, Inc.
3. Transmit both Agreements for approval to the City Council and Mayor in accordance with Executive Directive No. 3.

## **FISCAL IMPACT**

There will be no fiscal impact in executing these agreements. Grant funds from the Los Angeles County Department of Public Health cover the cost of the Agreement with FirstWatch Solutions, Inc. for the syndromic surveillance software license through March 31, 2018.

Board report prepared by Alicia Katano, Management Assistant, Administrative Services Bureau.
