

PLUM Meeting Aug 29 Council File No. 17-0864

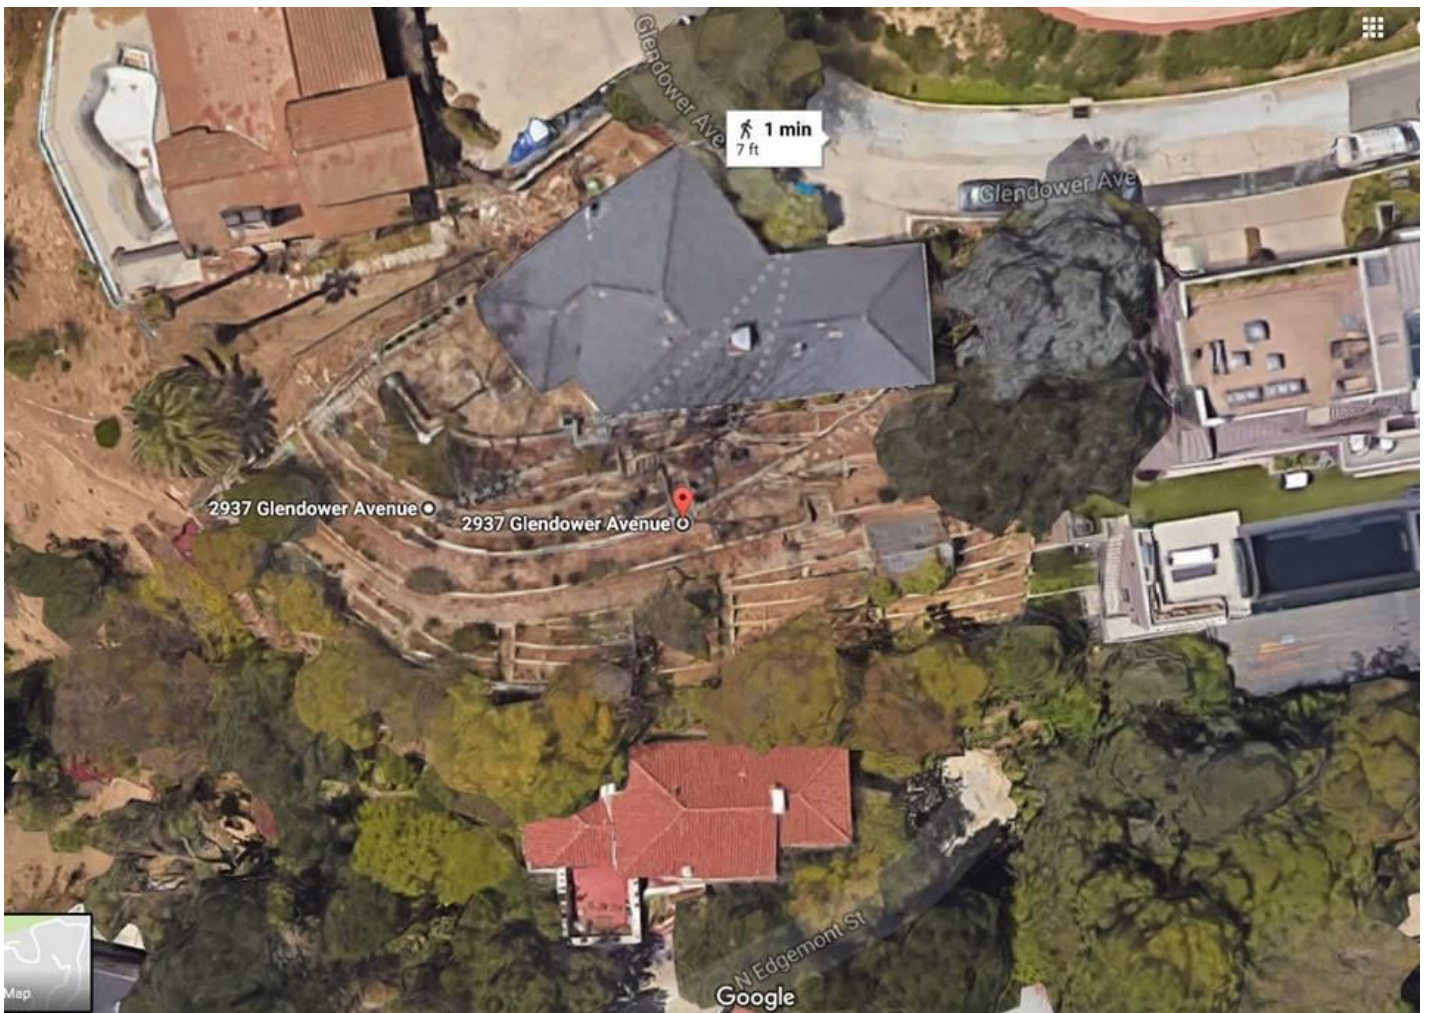

Nyla Arslanian
Posted in group: Clerk-PLUM-Committee

Aug 28, 2017 4:36 PM

Dear Councilmembers,

In addition to the attached letter of appeal, please be advised of the following:

Thanks to the wonders of technology the following image of the property above our home is available. While we have received verbal assurances that plans are in place to stabilize the hillside in question, no guarantee in writing has been forthcoming. Given the history of earth movement between these two properties and the apparent attempt by the previous owners to hold the land in place. The excavation and removal of such a substantial amount of earth places our property at risk.

Please note that to the right of the last visible wall, there is a continual steep slope toward Edgemont Street.

Best regards,

Oscar Arslanian and Nyla Arslanian
