

MOTION

ENERGY, CLIMATE CHANGE
ENVIRONMENTAL JUSTICE

In July 2017, the Bureau of Sanitation (LASAN) began the roll-out of the recycLA program. RecycLA strives to meet the City's zero waste goals, meet or exceed State requirements for waste diversion and mandatory recycling, improve efficiency of the City's solid waste system, and create a consistent and clearly defined system with fair and equitable rates. The recycLA program offers waste and recycling services to all commercial and industrial businesses, institutions, and large multifamily buildings. Mobile home parks are also serviced by the program.

Since the initial program roll-out, residents of mobile home parks have experienced drastic cost increases. Mobile homes are a critical source of housing for thousands of Los Angeles residents, especially seniors and low income individuals. The City must explore all possible avenues to reduce or minimize costs for these vulnerable customers.

I THEREFORE MOVE that the Bureau of Sanitation (LASAN) be instructed to report to the City Council on the feasibility of exempting mobile home parks from the recycLA program and resuming residential service of mobile home parks by LASAN.
