

The Lazy J Ranch Park in the West Hills area of Los Angeles is a popular park facility that serves a number of neighborhoods. The park has picnic tables and a dynamic children's play area that attracts numerous families every week.

The park is located at the intersection of Ingomar Street and Valley Circle Boulevard. Unfortunately, the park has a deteriorating fence, and itself is becoming a safety hazard to the many young children playing in park. The City should repair the fence to give back to park patrons the sense of comfort and safety while their children play. The Department of Recreation and Parks has inspected the situation and determined that there should be a tubular fence installed at Lazy J to improve park safety, but it lacks the funds to implement immediately.

I THEREFORE MOVE that \$100,000 be transferred from the North West Valley Project Mitigation Fund to the Recreation and Parks Fund No. 302/89, Account No. 89704H, for the tubular fence project at the Lazy J Ranch Park; and

I FURTHER MOVE that the Department of Recreation and Parks be authorized to make any corrections or clarifications to the above instructions in order to effectuate the intent of this Motion.
