

### MOTION

The site known as the KIIS Radio Tower, located at 1050 Montecito Drive, is used for the existing UHF Police voice radio system to ensure coverage for the Hollenbeck Police Division. The site is also used in the new 7/800 MHz Police radio system. The property belonged to Foursquare Church who leased it to the City for free. Foursquare Church later sold the property and the new owner is in discussion with the Department of General Services regarding a new lease. Use of the site is important for having radio coverage to ensure the safety of residents in the area and its loss would have a negative impact.

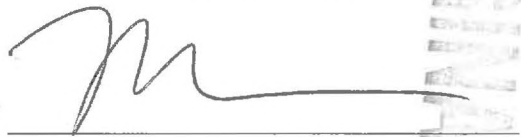

I THEREFORE MOVE that the General Services Department be instructed to report on the feasibility of entering into a lease, creating a permanent easement, or the purchase of the property at 1050 Montecito Drive 90031, also known as the KIIS Radio tower facility, which is currently used for the Police UHF voice radio system and new 7/800 MHZ design to ensure coverage around Hollenbeck Police Division area. The report should also include discussion of the possibility of relocating the KIIS Radio Facility to an adjacent site, with the assistance of the Information Technology Agency, the Police Department, and the Recreation and Parks Department
