**Comments for Public Posting:** There are over 150 of these tour vans that drive past my house EVERY SINGLE DAY. The information they provide is inaccurate (I know many, many people who have taken these tours and laugh at the claims they make as to who lives in what homes, etc). They clog the streets by driving dangerously slowly, often stopping abruptly and endangering others on the road. They park illegally and in spaces CLEARLY marked as No Stopping/No Parking zones. Because of their blatant disregard for the law there have been numerous unsightly barriers erected along Mulholland Dr. This further impedes traffic flow as people now walk along Mulholland (often in the dark) and park along narrow sections of the road (again the locations clearly marked as No Parking). They do not add to the value of our city. They clog traffic and make our beautiful city uglier and more dangerous. I EMPHATICALLY urge you to pass as restrictive legislation as possible to ensure the safety and smooth operation of our city streets.
