**Comments for Public Posting:** STOP the tour Vans from COMMODITISING our neighborhoods and our homes. These companies should immediately forfeit their right to conduct business in the Hollywood Hills. They have proven over many years, now, that they cannot and will not drive legally and safely on the public roads. They are a danger to everyone who drives on our streets and highways. They cannot and will not refrain from illegal use of loudspeakers. They cannot remove the risk of starting a deadly wildfire in these Hills by allowing illegal smoking and discarding of the lit cigarettes by their passengers out of the open chopped top vans and vans with all windows removed. They are unnecessarily increasing exposure to everyone who lives here with deadly carbon emissions and toxic fumes that are made much worse by the constant STOPPING, IDLING AND STARTING in front of peoples homes and along the roadsides where people run, walk, bike, and exercise their dogs.
