Council File No: 17-1115

Comments for Public Posting: I urge the City council to do something to reduce and regulate the Hollywood tour busses operation in the Hollywood Hills. They are not obeying traffic laws, they are a danger to traffic as they stop without warning in the middle of the road. Some of them are noisy as they speak over loudspeakers and therefore disturb the neighborhoods. The trucks are eroding some of the hillsides as they are pulling over where they shouldn't. Every day I witness Tourbuses making illegal turns into the Hollywood bowl overlook. All this needs to stop as these companies do not care about our neighborhood. It's a shame that it has come this far without any interfering by the city.
