Dear Mayor and City Councilmembers,

Thank you for your ongoing leadership and thoughtful attention to the many issues facing our city, especially reducing traffic by allowing more multimodal transportation options.

I want to let you know that I support shared electric scooters. These innovative new modes of transportation are affordable and environmentally-friendly.

Moreover, I've replaced my car with Bird scooters. I've reduced my emissions and taken one more car off the road, as I now commute on a Bird. Ridding the city of birds will just put one more car back on the road, and back in traffic.

As we plan for a more sustainable future, we need to embrace innovation that makes our city greener and our streets less crowded with bumper-to-bumper car traffic.

Thank you,
Kati Eason

Dear City leaders,

I ask that you please do not adopt the wrong headed decision to ban a sustainable mobility option in Los Angeles. We are in both a climate crisis and mobility crisis, and any rider on a scooter is someone not sitting in a car, putting out exhaust and traffic. Let's all work together to use our roads safer and smarter, including more bike lanes and pursuing reckless drivers who can harm others, and not clamp down on an innovative new mobility option.

Thank you,
Jonah Bliss
