SUMMARY

At the meeting held on February 14, your Arts, Entertainment, Parks and River Committee considered a Board report relative to the use of submerged tidelands and a portion of park property at Dockweiler State Beach for a proposed Subsea FiberOptic Cable System connecting the United States and the Asia Pacific Region, also referred to as the Los Angeles Trans-Pacific Telecommunications Cable Hub.. The RAP reports that the proposed Agreement between the City and Tyco Electron outlines each party's respective roles, responsibilities, and relationship with respect to the design, construction, installation, maintenance, and upgrades of the Los Angeles Trans-Pacific Telecommunications Cable Hub. The term of the proposed Agreement is for twenty-one (21) years and RAP would be compensated the amount of Five Hundred Sixty-Four Thousand Dollars (\$564,000.00). After an opportunity for public comment was held, the Committee moved to approve the recommendation presented in Board's revised transmittal, as detailed above. This matter is now forwarded to the Council for its consideration.

Respectfully Submitted,
