I am writing to express my absolute opposition to the \$425K to implement Countering Violent Extremism (CVE) program in Los Angeles. I firmly reject any funds and programs that promote a dehumanizing narrative that Muslims are a national security problem. Policies like CVE put our communities at real risk under this racist, Islamophobic regime.

All available public funds and resources should be centered on mental health care, housing, education not policing, incarceration, and xenophobic policy - bottomline.

I plan to take this logic to the ballot box. I hope your moral compass steers you in the right direction!

Many thanks,
Kristy Lovich
