SUMMARY

The Mayor's Office of Public Safety (Mayor's Office) is providing notification to the City Council of the submission of a competitive grant application and subsequent award of the Fiscal Year 2016 Countering Violent Extremism (FY16 CVE) grant. The Mayor's Office requests the authority to accept the FY16 CVE grant award of $425,000 with a grant performance period of August 31, 2017 through July 31, 2019. No matching funds are required.
Background

On July 3, 2017 the Department of Homeland Security (DHS) awarded the FY 16 CVE Grant to the City of Los Angeles in the amount of $425,000 with grant performance period of August 31, 2017 through July 31, 2019. This competitive grant does not have a matching funds requirement.

The FY16 CVE grant is awarded by the DHS to organizations that work to improve the security of our communities and prevent terrorism. The Mayor's Office received a grant award on behalf of the City of Los Angeles to develop proactive measures to build resilience and strengthen civil society-led preventions of factors that contribute to violent extremism.

Under the direction of the Mayor's Office, the Building Healthy Communities Program will leverage this grant to support community-led social services as well as integration and social cohesion activities to reduce factors that contribute to hate, bias, and violence in the social domain, outside of the law enforcement space. Funding will be utilized to conduct workshops and discussions incorporating private partners, government and academia. Funding will also support an on-line platform to connect a network of community-based organizations (CBOs) and provide operational referral tools, case management capabilities, and initiate services coordination.

The Building Healthy Communities program is a case management and community outreach component of an overall effective, coordinated, and comprehensive citywide and regional strategy to build resilience, prevention, and intervention. The City has developed a wide range of regional partners within government, academia as well as civil society to ensure multidisciplinary subject matter expertise.
