Hello!

I support the City of Los Angeles taking a strong and enforceable stance against separation of immigrant families by the US Government.

Therefore, I support the resolution to support the Keep Families Together Act.

However, this is also just another instance of Councilmember Cedillo's leading the fight to blame others for the horrific treatment of immigrants in Los Angeles — including the routine separation of parents from their children through detention and deportation right here in our neighborhoods.

What is happening on the border is atrocious and must be stopped.

The criminalization of people simply seeking a better life must be stopped.

The Los Angeles City Council has the power to stop this right here, right now, by passing LA Safe or a similarly strong ordinance that prevents LAPD from either intentionally or unintentionally funneling any human being into Trump's deportation machine.

For well over a year now the City Council has abdicated its responsibility to protect ALL residents of Los Angeles in favor of empty resolutions and pursuit of lofty goals that cannot be implemented quickly. Councilmember Cedillo's lip service on this issue is unconscionable. His advice to vote in a different Congress is on par with Kirstjen Nielsen's claims that the current situation is the fault of Democrats in Congress.

The City Council must use its considerable power at this particular moment in history to truly stand up for the families they represent, stop passing the buck and the blame to the federal government, and pass an ordinance that will forever separate LAPD from federal immigration enforcement.

Thank you.
