Comments for Public Posting: Heal the Bay is an environmental nonprofit with over 30 years of experience and 15,000 members dedicated to making the coastal waters and watersheds of greater Los Angeles safe, healthy, and clean. Heal the Bay supports the Motion (O'Farrell - Koretz - Bonin) relative to the use of zero emissions maintenance equipment, at parks or golf courses, in neighborhoods where improved air quality could be most beneficial. Air quality and water quality is intrinsically linked, as pollution in the air settles or dissolves into water at the surface of the waterbody. Improvements in air quality are therefore protective of water quality, and essential to the protection public health.
