Dear Paul Koretz,

I fully support efforts to allow public housing for individuals with pets.

A few years ago I was living in Silverlake and ran into an elderly homeless couple living in their car. They had two small dogs.

They could not find affordable housing that let them keep their beloved pets so they opted for living in their car. They were both in their 70s, diabetic, and living on small social security checks. There has got to be better options put into place.

Thank you,
Amy Sarkisian
