Dear Whom It may concerned.

Please reconsider establishing the temporary homeless shelter on Koreatown parking lot.

I personally support the idea of supporting the place for the homeless peoples.

To make a better community and to live all together with united please do have an ample time to discuss with the community leaders and remove the place in the difference place(s).

Sincerely,

Rachel Kim

Dear LA city council and councilman Wesson, (File#18-0392 CD10)

My name is Sarah Lee.

As a member of a Koreatown Community, I oppose your decision of a Koreatown homeless shelter without any fair transparant open Public Hearing & Community Input.

I do support your effort to solve the homeless issues in LA and I agree that we would need the shelters for them but please follow the democratic procedure and communicate with the community. I also agree that there should be as many shelters through out in Los Angeles including Koreatown community but please communicate with the community picking the proper location and share how this shelter would be ran becuase we are the actual ones who should be linving in the enviroment with shelter.

Thank you
Sarah Lee

Dear Sir or Modam,

Korean community was established
For 50years in Korea town.

We contributed a lot of service to the city.

I do not understand why Bangl adesh
People want to split Korean community
It is neither reasonable nor proper action.
By Bangladesh people.

Do not be free rider Bangladesh!

Dear Council President Wesson:

This letter is to indicate that I do not support the proposed temporary homeless shelter in Koreatown, located at [682 S. Vermont Avenue](#) (CF No. 18-0932). As a resident of this community, I was not given an opportunity to speak out my opinion or voice in this important matter that directly affects my community. Why was my right to due process ignored? The reasons given by your administration as to why this Koreatown parking lot was the best possible location is vague and does not show how you came to this decision.

Sincerely,

Eunice Lee

May 21, 2018

To: City Mayor, Eric Garcetti
Councilman, Herb Wesson

Re: Opposing statement against the designation of 682 S. Vermont
as a temporary bridging home

I write this letter on behalf of the public to object to City Mayor Eric Garcetti and Councilman Herb Wesson's designation of 682 S. Vermont Avenue as the first temporary bridging home. The City announced that the location will be designed to accommodate 65 homeless people only. We do not object to the idea of a temporary bridging home in District 10 *per se*, but we strongly object to the way how the location was chosen. We base our objection on the lack of procedural fairness and due process of law.

First, the designation was made without any public hearing required for fundamental due process under the Constitution. The City announced the designation on May 2, 2018, before there were any public hearings for people whose interests are directly affected by the future temporary bridging home. Residents in Koreatown were deprived of both their right to be informed of the City's policy regarding a temporary bridging home and their right express their opinions on the City's policy.

Second, the designation was made on the insufficient and illogical grounds. The City's purported basis that about 400 homeless people live on the streets in Koreatown, while there are about 1,500 homeless people in District 10, is not a logical or persuasive reason for designating the center of Koreatown as a temporary bridging home. The current case law permits the City to move 65 homeless people to a different location as long as it has a habitual facility. It appears that the City's decision is based on its administrative or political convenience.

Third, the City failed to give due or fair consideration to the impact that the temporary bridging home would have to the area. As stated, 682 S. Vermont is at the center of Koreatown. There are many commercial and residential buildings, including many kinds of restaurants and retail stores, as well as seven schools for children around the location – RFK school, Hoover St. Elementary, Rise Kohyang Middle School, Young Oak Kim Academy, Larchmont Charter School, New Covenant Academy, and Pilgrim School and Commonwealth Elementary. Accordingly, there already is a lot of car traffic in the area, as well as children walking through the location. The environmental impacts of building a temporary bridging home at 682 S. Vermont, such as the impact to children's safety and the economic impact on the community,

should have been seriously and fairly evaluated. California Environmental Quality Act (CEQA) mandates any government agency to prepare for an Environment Impact Report before starting to construct to any building. We have not seen any kind of environmental impact report from the City. Moreover, the City has its own properties in District 10, but as far as we are aware, the City did not conduct a full environmental evaluation on any other possible location before it designated 682 S. Vermont as a temporary bridging home. As a result, the people who live or work in Koreatown feel that they have been unfairly treated and discriminated against, which is why they have demonstrated against the City for the past three Saturdays. Pending a full environmental evaluation on other possible locations in District 10, the designation of 682 S. Vermont should be vacated.

We request that the City seriously consider these grounds of objection. We understand that Senate Bill 2 exempted local governments from holding a prior public hearing and the intent to help resolve the homelessness issue in California. However, the people still believe that there must be proper and fair procedure and due process of law. Without consensus-building through public hearings, and full environmental evaluations of potential alternative locations for temporary bridging homes, the City's designation of any location will face continuous resistance from the community. Even if the City goes ahead and builds the temporary bridging home as designated, the proper and continuous operation will not be guaranteed due to the lack of consensus. Therefore, it is in everyone's interest to communicate first and resolve this issue together.

Sincerely,

K. Freeman Lee, Attorney at Law

City Council and Councilman Wesson,

On May 2, 2018, Mayor Garcetti and Councilman Wesson announced in front of media that the City will build a emergency homeless shelter at 682 S. Vermont Ave., LA CA. Until May 2, 2018, there was no procedure of informing the community members of this plan, nor prior consultation with the community whatsoever. This is not only a matter of the due process right to be heard, but also the matter of the right to be informed. Even now, there was no details of the plan disclosed to the community. As you might have seen on the news, the community members living and/or working in the area including Korean Americans, Latinos, and African Americans, etc., express their concerns through multiple rallies. While we understand SB2 provides that for this kind of shelters, the cities may choose to not have a public hearing. We do agree that; (1) there are over 35,000 homeless people in the City of LA; (2) this has been a big issue for the city and our community; (3) we need to do something and want to resolve this issue. We are in fact glad that the City pays attention to this issue, and will spend 20 million dollars for emergency homeless shelter and 1.2 billion dollars for supportive shelter. However, the discussion should not stop there. We have to discuss why we could not resolve this issue any earlier than today. We have to discuss why homeless people did not use the existing shelters. We have to discuss what the shelters should provide to truly help homeless. We have to discuss what impacts the potential homeless shelters could bring to the neighboring community such as children walking by the shelters to go to schools. Further, the community members should be clearly informed about what is going on. The community members should be given proper procedure to be heard. In this case, this plan to build a shelter at 682 S. Vermont Ave. shows that the City and CM Wesson simply failed to consider any of the above-said discussion factors and take any of the above-said procedure. Other City Districts have been informing, and discussing with, the community members, of their plans and available candidate sites, and their usefulness for the homeless and their impacts on the neighboring area. CD 10 of CM Wesson is the only city district that did not have any public hearing on this site at all. The community members near 682 S. Vermont Ave. from multiple ethnic groups are requesting that we (1) consider all available sites in CD 10, (2) do the public hearings through which the community members will be informed of, and heard about, the plans, and (3) choose the best site that will really help the homeless people while minimizing the negative impacts on the community. If necessary, we are ready to help the City even more actively than simply watching what they do. We are disappointed and concerned that Mayor Garcetti and Councilman Wesson simply mischaracterize our attempts to talk either NIMBY, fear or anger. They are either simply off the point or pretend to fail to understand what the community is saying. This issue of homeless people is one of the biggest community issues, which requires the efforts and cooperation from the entire community. I am sure all of the residents in the City would agree that we need to resolve the issue. This does not have to be adversary at all. This in fact should not be adversary. Rather, this attempt to resolve the homeless issue requires the entire community's participation, discussion and cooperation to be successful. Again, we want to discuss together and resolve the issue together.

City Council and Councilman Wesson,

On May 2, 2018, Mayor Garcetti and Councilman Wesson announced in front of media that the City will build an emergency homeless shelter at 682 S. Vermont Ave., Los Angeles, CA. Until May 2, 2018, there was neither any procedure of informing the community members about this plan, nor any prior consultation with the community. This is a matter of the due process right to be heard as well as the matter of the right to be informed. Even now, there has not been any detail of the plan disclosed to the community.

As you might have seen on the news, the community members living and/or working in the area including Korean Americans, Latinos and African Americans expressed their concerns through a number of rallies. We do agree that; (1) there are over 35,000 homeless people in the City of Los Angeles; (2) this has been a big issue for the city and our community; (3) we need to do something and want to resolve this issue. We are in fact glad that the City pays attention to this issue, and will spend 20 million dollars for emergency homeless shelters and 1.2 billion dollars for supportive shelters.

We are aware of SB2 that provides cities may choose not to have a public hearing for this kind of shelters. However, skipping public hearing is not a sound solution as homeless shelters bring other critical consequences. We have to discuss why we could not resolve this issue any earlier than today. We have to discuss why homeless people did not use the existing shelters. We have to discuss what the shelters should provide to truly help the homeless. We have to discuss what potential impacts the homeless shelters could bring to the neighboring community such as children walking by the shelter to go to school and elderly people walking by the shelter to go to market or retail shops. Further, the community members should be clearly informed about what is going on. The community members should be given proper procedure to be heard. In this case, this plan to build a shelter at 682 S. Vermont Ave. shows that the City and Councilman Wesson simply failed to consider any of the above-said discussion factors and take any of the aforesaid procedure.

Other City Districts have been informing and discussing with the community members of their plans and available candidate sites as well as their usefulness for the homeless and their impacts on the neighboring area. CD 10 of CM Wesson is the only city district that did not have any public hearing on this site at all.

The community members near 682 S. Vermont Ave. from multiple ethnic groups are requesting that we (1) consider all available sites in CD 10, (2) do the public hearings through which the community members will be informed of, and heard about the plans, and (3) choose the best site that will really help the homeless people while minimizing the negative impacts to the community. If necessary, we are ready to help the City even more actively than simply watching what they do.

We are disappointed and concerned that Mayor Garcetti and Councilman Wesson simply mischaracterize our attempts as NIMBY selfish reaction or as feared/angry response. They both are either pretending to fail to understand that the community is truly saying or unwilling to understand the community's concerns stemming from the subject shelter. This issue of homeless people is one of the biggest community issues, which requires the efforts and cooperation from the entire community. All of the residents in the City would agree that we need to resolve this important issue. This does not have to be adversary at all. Indeed, this should not be adversary. Rather, the attempt/effort to successfully resolve the homeless issue requires the entire community's participation, discussion and cooperation. Again, we want to discuss together and resolve the issue together.

You W. S. You

Dear LA city council and councilman Wesson,

I think choosing shelter place in LA Wilshire was not a fair procedure. I demand fair public hearing so everyone could understand how procedure was fair and democratic.

Regards,

Jamie Lee

Korea town has been built by hard work and sacrifice of Korean Americans. The korea town businesses have been making a great contribution to the economic development in the community. Now, we are unfairly treated by being excluded from the decision of making a homeless shelter in the heart of Korea town. We strongly demand a public hearing for the homeless shelter in Korea Town. We have a right to participate in a decision making for our community. Please, have our voice heard and respected !

Dear LA City Council and Councilman Wessen,

Per File Number 18-0392-CD10, I would like to add my voice to demand a fair public hearing procedure for the decision to relocate the LA homeless shelter.

Such decision needs a proper hearing to take into account the public opinion. I ask that you and your office take time to understand the implication of the homeless shelter being established on the school, businesses, and the residents adjacent to the shelter. I demand that you take time to also study the long-term effect on the economic outlook of this general area if there were to be a shelter.

Please reconsider the relocation decision until you hold a fair public hearing to gather full data from economists, city planners, and the residents of the affected area.

Sincerely,

Kay Rhie

Dear LA City Council and councilman Wesson,

File #18-0392 CD10:

As one of the residents of Korea town, I understand the needs of homeless shelter. But I have a big concern about the location. My kids always ride a bus to the school near that location and have to walk by 7th+Vermont to ride a bus home. And there are other schools near that location. It is not good location because kids always walk and pass by that location.

LA city has to find a better location near hospitals or so, not near the schools.

Also, we should have a public hearing to proceed this project.

Sincerely,
Tammy Yoo

Dear LA city council and councilman Wesson

My name is Young Kim living at [282 N Glendora Ave Covina Ca 91724](#).

I'm writing to you today regarding building a homeless shelter in Ktown. I would like to ask for due diligence process in making the decision by providing notice to residents and businesses nearby and public hearing to discuss if the decision has been reached properly. It is alarming to the residents, schools and businesses that are flourishing in the neighborhood as the shelter will bring safety issues as seen in LA downtown shelter area. It is important to provide needs to the homeless but it should be done in a way to bring harmony to All people, not in favor to just to one side. The Ktown has many innocent children and women that needs to be protected rather than being exposed to sexual harrassment and drugs which will be prevalent with the current proposal. Please reconsider the decision for the people, especially the children who are the future of this nation.

sincerely,

Young Kim

To LA city council and councilman Wesson

Would you please give us a public hearing regarding the homeless shelter on [682 S vermont ave?](#)
I am sure the city council already know that many community people object the decision made without our inputs.
This is not right that the government is not consulting with community beforehand.
Please hear and respect our voices.
Thank you,

Hee yon Koh

Hello, my name is So Young Kim and I live in Tallahassee, Florida.

I would like to comment regarding the file number 18-0392 CD10.

I heard about building a homeless shelter in LA Korea town. I believe there should be a proper public hearing procedure before building the LA shelter. Please hold the public hearing and reconsider the plan.

Thank you.

Regards,
So Young Kim
