Dear Ms. Wolcott:

I am writing on behalf of my client to call the attention of the City Council to a past violation of the Ralph M. Brown Act by the Homelessness and Poverty Committee of the City Council concerning action taken on or about May 22, 2018. Please see the attached letter which outlines the violation. As provided by Government Code § 54960.1(c)(2) the City Council may respond to this demand within 30 days of receiving the letter by curing and/or correcting the action and informing my office in writing of its actions to that end. My client contends that the City would be required to re-agendize this item, allow for each member of the public who wishes to speak on the item to be given the opportunity, and take a new vote in accordance with the Brown Act. If the City Council does not cure and/or correct this action, my client intends to commence an action seeking a judicial determination regarding whether the challenged action violated the Brown Act.

Dear Council President Wesson:

This letter is to indicate that I do not support the proposed temporary homeless shelter in Koreatown, located at [682 S. Vermont Avenue](#) (CF No. 18-0932). As a resident of this community, I was not given an opportunity to speak out my opinion or voice in this important matter that directly affects my community. Not only that, I was not directly informed that this decision was made.

I strongly believe that it was unfair for the city council to make this big of a decision without public hearing. The reasons given by your administration as to why this Koreatown parking lot was the best possible location is vague and does not show how you came to this decision. Please reconsider this decision and the location of the shelter!

President. LA City Council

I am writing this letter to express my concern that I do not support the proposed temporary homeless shelter at [682 S.Vermont Ave.](#)

I do not appreciate the lack of transparency in the decisions made about the shelter.

I truly believe that you should treat all Koreatown business owners and residents in better way than now.

Dear Mr. Wesson,

I understand that we all have responsibility to be cooperative in the government's policy in promoting our community's best interest. However, I am concerned about the decision regarding the homeless shelter in Korea town was made without a public hearing.

I hope the council can deal with the shelter plan impartially through a clear and legitimate process.

Thank you for your time.

Hon. Councilman and City officials:

Re: File # 18-0392 CD10 (Against building a Shelter with or without Public hearing)

First of all, I thank you very much for your time and effort for the City.

As the property owner in the area, this is to strongly protest and oppose the idea of building any kind of shelter, especially without a public hearing about it.

I have owned the property for many years, participate our community building, and want the best for our community and the City. However, I strongly oppose building a homeless or any kind of shelter or resting place in Korea Town, especially without proper public hearing.

This is against the idea of township and violation of our rights to the property owners and residents.

Please, be sure take this opinion seriously, as we are very concerned about the future of our community. As you know, we are already suffering deeply with vandalism, theft and solicitation of money (begging) in our community, and we believe that this shelter will NOT help or provide any solutions to the problem, other than adding a small bandage to a large wound, which will led to a larger issues while our community suffers a drastic downfall. We, as the property owner and residents have a right to enjoy and have a quiet lives in our neighborhood that we lived and built for many years, and and a right to maintain the value of our properties and community.

Thank you very much.

Hi Councilman Wesson and City officials:
Re: File # 18-0392 CD10 (Against building a Shelter with or without Public hearing)

First of all, thank you very much for your time and effort that you put in for the City.

As the property owner in the district, I'd like to strongly protest and oppose the above referenced item.

I have owned the property for many years and I want what's best for our community and the City. However, I strongly oppose building a homeless or any kind of shelter or resting place in Korea Town, especially without proper public hearing.

This is against the idea of township and violation of our rights to the property owners and residents.

Please, be sure take this opinion seriously, as we are very concerned about the future of our community. As you know, we are already suffering deeply with vandalism, theft and solicitation of money (begging) in our community, and we believe that this shelter will NOT help or provide any solutions to the problem, other than adding a small bandage to a large wound, which will led to a larger issues while our community suffers a drastic downfall. We, as the property owner and residents have a right to enjoy and have a quiet lives in our neighborhood that we lived and built for many years, and a right to maintain the value of our properties and community.

Thank you very much.

Dan Kim

President, Los Angeles City Council

Council member, 10th District

Dear Council President Wesson:

This letter is to indicate that I do not support the proposed temporary homeless shelter in Korea town, located at [682 S. Vermont Avenue](#) (CF No. 18-0932). As a resident of this community, I was not given an opportunity to speak out my opinion or voice in this important matter that directly affects my community. Why was my right to due process ignored? The reasons given by your administration as to why this Korea town parking lot was the best possible location is vague and does not show how you came to this decision.

Sincerely,

They need lots of letters! Already the supporting side has 30!

Re: Demand to Cure And/or Correct Action in Violation of Brown Act; Council File No. 18-0392

Dear Ms. Wolcott:

I am writing on behalf of my client to call the attention of the City Council to a past violation of the Ralph M. Brown Act by the Homelessness and Poverty Committee of the City Council concerning action taken on or about May 22, 2018.

The nature of the violation is as follows: On or about May 22, 2018 the Homelessness and Poverty Committee of the City Council considered a Motion related to a proposed temporary homeless shelter at 682 S. Vermont, Los Angeles, CA in Koreatown. The Motion was identified on the agenda as Item No. 3. The proposed homeless shelter has been extraordinarily controversial, drawing media attention, multiple protests and a petition with over 9,600 signatures. The issue of whether or not a public hearing should be afforded to allow "due process" has been a primary issue. Yet, the City limited the total time for those speaking in opposition to the Motion to 15 minutes despite the fact that over 100 people waited in line to speak on this matter (many waiting in the hallway). For many, this was their first time visiting City Hall or attending a hearing of this type. In order words, this was their introduction to local government and they expected that in our democratic system their voice would be heard by their elected leaders.

As you are aware the Brown Act creates clearly states that the public has a right to address the City Council (and its committees) at any meeting on any subject that is within the council's subject matter jurisdiction. Government Code § 54954.3(a). The right to express one's views in a public place is fundamental to a free society. 78 Ops Cal Atty Gen 224, 226 (1995). While a City Council may regulate the total amount of time on particular issues and for each individual speaker,

that power is limited by the requirements of due process in quasi-judicial hearings. Government Code § 54954.3(b); *Manufactured Home Communities, Inc. v. County of San Luis Obispo* (2008) 167 Cal.App.4th 705 (outlining due process requirements). Quasi-judicial or “administrative” actions are subject to the due process requirements of the Fourteenth Amendment to the United States Constitution which provides that a governmental regulation may not deprive a person of life, liberty, or property without due process of law. The procedure employed must be fair and accord those with an interest in the matter a meaningful opportunity to prepare and be heard. Examples of quasi-judicial actions include, but are not limited to, issuance of discretionary land use permits, business licenses, civil service grievance hearings, rent control hearings on applications for rent increases or decreases, and other similar actions in which a property interest is at stake.

There are clearly property interests at stake in the instant matter. Therefore, the City violated the Brown Act by limiting the ability of members of the public to speak on the item.

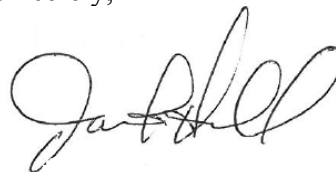

Pursuant to Government Code § 54960.1, and on behalf of my client as an interested person alleging a violation of the Act, my client demands that the City Council cure or correct the action.

As provided by Government Code § 54960.1(c)(2) the City Council may respond to this demand within 30 days of receiving the letter by curing and/or correcting the action and informing my office in writing of its actions to that end. My client contends that the City would be required to re-agendize this item, allow for each member of the public who wishes to speak on the item to be given the opportunity, and take a new vote in accordance with the Brown Act.

If the City Council does not cure and/or correct this action, my client intends to commence an action seeking a judicial determination regarding whether the challenged action violated the Brown Act. Such an action would include a request to the court for payment of costs and reasonable attorneys' fees pursuant to Government Code § 54960.5.

I may be contacted at 310-982-1760 or at jamie.hall@channellawgroup.com if you have any questions, comments or concerns.

Sincerely,
