To the City Council President Herb Wesson:

I write in regards to the proposed shelter in Koreatown, Los Angeles.

As an individual who takes part in this community, it is unarguable that the City Council proceeding to make a decision like this without hearing the voice of the actual community is extremely disrespectful.

Please reevaluate this decision. Please have the decency to at least hold a public hearing so that the community can voice it's concerns.

Thank you,

File No: 18-0392 (CD 10) | 682 South Vermont Avenue (Lot 691) | Temporary Homeless Bridge Housing Facility Public Comments

This is Sue L, a Wilshire Center-Koreatown resident have been living over 10 years. I'd like to present my concerns regarding the temporary homeless shelter project. In my view, this temporary homeless plan at the location (682 S. Vermont Ave) is **NOT an effective plan and NOT suitable location** for homeless, residents, business commerce, and community.

Please see the map below to understand the site. The red mark (arrow) is the shelter location 682 South Vermont Avenue (Lot 691).

1) Unsuitable location 682 South Vermont Avenue

Please look over temporary facility location 682 South Vermont Avenue (Lot 691) and the surrounding area. This site is in the center of high density in population, apartments, business commercial buildings, retail stores, and even many schools (Elementary-12). It means that this location currently has high volume of residents, visitors, street walkers, students, seniors, and even vehicle traffic. Heavy traffic and lack of parking place are also the current problems in this area. Especially, medical centers for mental illness and drug are not near around the location. The Fox 11 news reported that LA county's homeless on the streets is due to 34% domestic violence, 30% mental illness, and 19% substance abuse (according to LA county homeless authority). There are not even proper health care centers near the site. In the current circumstances, is this a proper location to set a temporary homeless shelter for homeless as well as the neighborhood? **This site location itself cannot be a suitable place as a temporary homeless shelter.**

2) Over 5 schools located within 0.3-0.5 miles (walking distance 5-10 mins.) from the site

The site (Lot 691) is NOT surrounded by 100% commercial buildings or retail stores. Over 5 schools are located even within 0.3-0.5 miles (walking distance 5-10 mins.) from the site. (Schools: Young Oak Kim Academy, Robert F. Kennedy Community Schools, Hoover Street Elementary School, Commonwealth Avenue Elementary School, South Western Law School). Especially, most of the schools are for elementary-12 students. Have the city /council members seen how many students, kids, and parents are walking on the street in the morning? Is there any temporary homeless facility that located within 0.5 miles from schools? **The plan of temporary homeless shelter/facility near the schools is an outrageous idea.**

3) The size of Lot 691 and homeless numbers in Koreatown

The Mr. Wessen Herbs site (www.herbwesson.com) states "...there are approximately 400 individuals living unsheltered in Koreatown. The only site owned and controlled by the City of Los Angeles and available for temporary housing is 682 S. Vermont Ave. ..." along with the tent facility rendering image below.

Check the site size. The proposed site is very small site currently available approximately 65 vehicles. How many the tent facility will be set in the small site? Per some media, the city budgets over \$1.0 million dollars and the temporary homeless facility would be able to stay around 65 people. Is this a plan for 65 homeless people of 400 homeless people in Koreatown? How will the city control the rest of them on the street? The Mr. Wessen Herbs site (www.herbwesson.com) also states "...A minimum of 15 temporary homeless housing facilities will be built across the city." It seems that shelter of homelessness crisis may not require in every neighbor but it will take several per a district. If temporary shelter will be built across the city or district, isn't there any other suitable places where has low population density, medical groups/center, small amount of schools, apartments, stores? Why is the small site (Lot 691) selected as the first suitable place? Did the city research and analyze any other public owned sites in the district? **It seems that the temporary shelter at the proposed site is NOT effective plan in site size, cost, homeless rate, and even surrounding area.**

4) Homelessness

There are many causes of homelessness, such as a lack of affordable housing, poverty, unemployment, and life events. And, homeless population has been increased from many years ago. Have the city/council staff interviewed or research what the homeless on the street really want? All homeless is living in unstable place (tent, trailer, cars etc.). They need stable place NOT temporary shelter facility. Generally speaking, only after people are in stable housing, people can begin to address their other challenges. If homeless people (or street camping people) cannot have stable housing environment including health assistance, they finally return to be homelessness again. It means homelessness crisis will be continues. Many cities in the US has been adopting housing first strategy with success in reducing homelessness. However, the proposed plan is still focused on temporary factors like showers, and beds with a huge amount of money. It seems that **the current temporary homeless facility become a waste of money and time without providing help homeless people who need stable place and without reducing homelessness.**

5) Veiled procedure without communication with the community (residents)

In the Koreatown shelter plan, unfortunately the city (or councilman) didn't communicate with the community and

announced. It is unavoidable that the homeless facility and homeless people would affect to the surrounding area (community) in many reasons. Even the current existing homeless shelters (where people line up and get in and out in the morning) are also affected to the surrounding area especially in many negative issues. Even though there is SB2 law, **the city/councilman must collaborate with the community groups and people through hearing and discussion to find effective solutions for homeless people as well as the residents/community.** Why the city, councilman, and city staff do not collaborate with the community (currently Koreatown people) to resolve the important social issue?

I hope the city/councilmen and staff exams and research the location again and collaborate with the community deeply to find an effective solution. It seems that the temporary homeless shelter plan including the proposed site and procedure are not reasonable solutions.

Dear Mr. Wesson,

I heard that LA city announced that it would build a homeless shelter in the middle of Korean community without public hearing. I understand that we all have responsibility to be cooperative to promote the health for our community however, I am concerned because this decision was made without fair public hearing. I hope the council to deal with the shelter plan impartially through a clear and legitimate process.

Subject: DUE PROCESS REQUEST - 682 S VERMONT

Dear City Of Los Angeles,

I am writing this letter to share my concern on your homeless shelter project made on 682 S Vermont. My heart really cries for those homeless people being honest and agree to support them. No one should be left out on the street!

However, I did not see a clear point why Mr. Wesson selected the 682 S Vermont without due process. His claim sounds clumsy with the following reasons:

1. Why no public input? This is Los Angeles, City of Democracy. I know SB-2 has been already passed, so no need to go through many steps to build a homeless shelter, but SB-2 sounds like it could be unconstitutional b/c it limits the public input – people's voice. I can't believe we have such a rule limiting the public input. This is 2018 America, we live in Los Angeles, California!
2. Any Data proving 682 S Vermont has the most homeless people is available? Mr. Wesson claimed that the Mid - Wilshire area has the most homeless people in the district 10. Is that right? Please prove the data. I don't see any reliable data source.
3. Why Mr. Wesson's Flyer listed the LA city owned properties but Korea town only? Is that all properties available in the district 10? It looks like 682 S Vermont was pre targeted without any comparisons with other properties. Is that true? If so, it is not fair.
4. Why 682 S Vermont is the best? It is in close proximity to many schools within a mile and just one block away from the Wilshire/Vermont Metro station. I understand that the place might be convenient to serve various demands of the homeless people but we also think about the thousands of walking populations including children, women, and elderly – their safety and public health matter. It is in a too busy area for shelter.
5. 5/22/19 meeting is NOT a public hearing but a committee meeting. I can't believe Mr. Wesson did not do the due process before he present this project to the committee meeting. Why he wants to hold his own without his people's voice? He is an elected official, hearing and representing his people are his duty. I don't think he is doing his job now.

I feel for the homeless people and want to support them with due process. Anyone could be homeless these days so my due process request is nothing to do with NIMBY – Zero. Mr. Wesson and Mr. Garcetti, you can do this project in a better way with all community supports, please do not leave anyone out. Let's work together, this is your people's voice!

To LA City Council and Councilman Wesson,

File Number: 18-0392 CD10

We demand public hearing for the plans of placing a homeless shelter in Koreatown. The shelter's location is in the heart of Koreatown where there are many shops and restaurants. If a shelter is to be placed, these businesses will fall out of demand. There are nine schools around this area which means that a shelter poses violence and a risk to students that are attending these schools. Please consider another location preferably in the outskirts of Koreatown or any other neighborhood. Please hear and respect our voice.

Sincerely,

Jeffrey Jae Won Yoo

Good morning Ms. Lattimore,

My name is Kelly Kim and I reside in City of Los Angeles at the following address:
4027 Country Club Drive, Unit 101
Los Angeles, CA 90019

I would like to take this opportunity to voice my opinion on the homeless shelter project in Koreatown. I find it absolutely unreasonable and unfair to not hold any public hearing on this grave issue to hear the the responses from the affected communities. I just learned that there was a council committee meeting to discuss this matter at 8:30 this morning when most people cannot attend due to their jobs. I believe that our community has greatly contributed to the City's economy at minimum and deserves to be treated fairly just like any other communities. I request that public hearings be scheduled immediately including the evening hours with a reasonable amount of notice. So, the affected individuals can attend and have their voices heard. Again, we just want a fair treatment and an opportunity to be heard! Thank you!

Thank you,
Kelly Kim

Dear Mr. Wesson,

I heard that LA city announced that it would build a homeless shelter in the middle of Korean community without public hearing. I understand that we all have responsibility to be cooperative to promote the health for our community however, I am concerned because this decision was made without fair public hearing. I hope the council to deal with the shelter plan impartially through a clear and legitimate process.

Thank you

Dear Council President Wesson,

I went to the protests over a week ago, and saw many signs citing the lack of due process, suggesting the community felt blindsided. To give you some context, the Korean community still distrusts the local government from the events of the 1992 LA Riots, when law enforcement abandoned Koreatown to protect wealthy white neighborhoods like Beverly Hills, leaving thousands of Korean businesses to burn. Despite the complex political nuances involved I see people like you dismiss our voices as just nimbysism and opt to build the shelter anyways. If you are truly for the people of Los Angeles, I suggest you explore placing the issue of homelessness on the people who can afford to (rich affluent neighborhoods), not on poor minority communities.

Sincerely,
Simon Joo

Hi, I am writing this letter to show that I don't support current proposed homeless shelter site located at [682 S. Vermont Ave.](#)

I was surprised to hear that homeless shelter will be built on center of Korean town and also many school nearby. I am asking why I didn't hear about this decision until now. I think there are many more location to better serve homeless and without affecting residents' life. Why can't we built this right next to Herb Wessn or Eric Garcetti's house as they accusing us NIMBY. You guys are nothing better than Mr. Trump. Mr. Trump do at least tweet but you guys just decide behind curtain. This is typical example of corrupt politician.

I just want my voice to be heard.

Dear Mr. Wesson,

I heard that recently the LA city announced that it would build a homeless shelter in the middle of the Korean town without a public hearing in the Korean town. I understand that we all have responsibility to be cooperative in the government's policy in promoting the health and the best of our community. However, I am concerned because the decision regarding the shelter was made without a proper and legitimate process.

Such a process is a indispensable condition to ensure the fairness of dealing a problem and also the cooperation of the citizens. I hope the council to deal with the shelter plan impartially through a clear and legitimate process.

Sincerely,
Hannah Shoemaker

Dear Council President Wesson:

This letter is to indicate that I do not support the proposed temporary homeless shelter in Koreatown, located at [682 S. Vermont Avenue](#) (CF No. 18-0932). As a resident of this community, I was not given an opportunity to speak out my opinion or voice in this important matter that directly affects my community. Why was my right to due process ignored? The reasons given by your administration as to why this Koreatown parking lot was the best possible location is vague and does not show how you came to this decision.

This letter is to indicate that I do not support the proposed temporary homeless shelter located at [692 S. Vermont Avenue](#) (CF No.18-0932). The process of coming to this conclusion was not transparent to the residents and community members of Koreatown, and undermines our rights to be included in the conversation of figuring out the best locations for the proposed temporary homeless shelter within the district.

Why not sell the lot and use that profit to create bigger and better shelter away from schools and residential/commercial buildings??? Wesson lies and says there are 400 homeless in Mid Wilshire area. But look at the picture below! There are far more homeless crisis in other areas so I want to know - HOW DID WESSON CHOOSE THIS LOCATION?? WHY???????????????

Dear Mayor Garcetti and Councilman Wesson,

On May 2, 2018, Mayor Garcetti and Councilman Wesson announced in front of media that the City will build a emergency homeless shelter at 682 S. Vermont Ave., LA CA.

Until May 2, 2018, there was no procedure of informing the community members of this plan, nor prior consultation with the community whatsoever. This is not only a matter of the due process right to be heard, but also the matter of the right to be informed. Even now, there was no details of the plan disclosed to the community.

As you might have seen on the news, the community members living and/or working in the area including Korean Americans, Latinos, and African Americans, etc., express their concerns through multiple rallies.

While we understand SB2 provides that for this kind of shelters, the cities may choose to not have a public hearing. We do agree that; (1) there are over 35,000 homeless people in the City of LA; (2) this has been a big issue for the city and our community; (3) we need to do something and want to resolve this issue. We are in fact glad that the City pays attention to this issue, and will spend 20 million dollars for emergency homeless shelter and 1.2 billion dollars for supportive shelter.

However, the discussion should not stop there. We have to discuss why we could not resolve this issue any earlier than today. We have to discuss why homeless people did not use the existing shelters. We have to discuss what the shelters should provide to truly help homeless. We have to discuss what impacts the potential homeless shelters could bring to the neighboring community such as children walking by the shelters to go to schools.

Further, the community members should be clearly informed about what is going on. The community members should be given proper procedure to be heard.

In this case, this plan to build a shelter at 682 S. Vermont Ave. shows that the City and CM Wesson simply failed to consider any of the above-said discussion factors and take any of the above-said procedure.

Other City Districts have been informing, and discussing with, the community members, of their plans and available candidate sites, and their usefulness for the homeless and their impacts on the neighboring area. CD 10 of CM Wesson is the only city district that did not have any public hearing on this site at all.

The community members near 682 S. Vermont Ave. from multiple ethnic groups are requesting that we (1) consider all available sites in CD 10, (2) do the public hearings through which the community members will be informed of, and heard about, the plans, and (3) choose the best site that will really help the homeless people while minimizing the negative impacts on the community. If necessary, we are ready to help the City even more actively than simply watching what they do.

We are disappointed and concerned that Mayor Garcetti and Councilman Wesson simply mischaracterize our attempts to talk either NIMBY, fear or anger. They are either simply off the point or pretend to fail to understand what the community is saying.

This issue of homeless people is one of the biggest community issues, which requires the efforts and cooperation from the entire community. I am sure all of the residents in the City would agree that we need to resolve the issue.

This does not have to be adversary at all. This in fact should not be adversary. Rather, this attempt to resolve the homeless issue requires the entire community's participation, discussion and cooperation to be successful. Again, we want to discuss together and resolve the issue together.

This letter is to indicate that I do not support the proposed temporary homeless shelter located at [692 S. Vermont Avenue](#) (CF No.18-0932).

There are schools around the shelter place, and one of the schools is just five minutes away from shelter area. Some of the children have to walk by themselves, and safety for children must be important issue to choose the shelter place. Surrounded by Public Schools and busy business area is not best location for proposed temporary shelter.

Also process for choosing right place for shelter has not been transparent with community ,and did not have enough conversation with community also.

Thank You.

Dear Council President Wesson:

This letter is to indicate that I do not support the proposed temporary homeless shelter in Koreatown, located at [682 S. Vermont Avenue](#) (CF No. 18-0932). As a resident of this community, I was not given an opportunity to speak out my opinion or voice in this important matter that directly affects my community. Why was my right to due process ignored? The reasons given by your administration as to why this Koreatown parking lot was the best possible location is vague and does not show how you came to this decision.

This is America

We have to help poor people and weak people but not by force

May public hearing to let the people know and let people work together

Also

Homeless site at middle of city? Business owner lost customer because some people don't like different people. How about home owner?

And only one site?

Can you make more site? LA need more homeless site. Also share a pain(?) together will light burden.

COUNCIL FILE NUMBER (18-0392)

I am implacably opposed to the plan shelter at [682 S vermont, la ca](#)

682 S vermont , there are 9 schools and many people use public transportation (ex, subway, buses)

the shelter plans (especially tents) have never been successful and [682 S vermont](#) parking lot is very small for homeless individuals.

considering budget,, using empty buildings for homeless individuals would be much better (for example, empty buildings : previously hospital buidling?)

Dear Wesson,

This letter is to indicate that I do not support the proposed temporary homeless shelter in Koreatown, located at [682 S. Vermont Avenue](#) (CF No. 18-0932). As an HOA board member of 620 S Gramercy, I speak for over 300 residents when I say we were not given an opportunity to speak out my opinion or voice in this important matter that directly affects my community. Why was our right to due process ignored? The reasons given by your administration as to why this Koreatown parking lot was the best possible location is vague and does not show how you came to this decision. Dear Council President Herb Wesson:

As a responsible citizen who cares about all people, I am alarmed at your lack of respect in your treatment of the residents and stakeholders in Koreatown. This issue about a Temporary Homeless Shelter in Koreatown could have been handled in a far different manner. Had you sought input from the residents and other stakeholders, we could have been your best allies, instead you have attempted to bully the Koreatown community with the power of your office which is now back-firing on you.

After the press conference on May 2, 2018, announcing the 682 S. Vermont site as the first Temporary Homeless Shelter to go up per Mayor Garcetti, there has been a huge lack of communication causing great confusion. Back in March 2018, the City Council voted and decided to make the first Temporary Homeless Shelter at El Pueblo near Olvera Street, but I guess per the Mayor and yourself, the Koreatown Temporary Homeless Shelter will be the first under the new "A Bridge Home" plan.

When asked by Korean Media how the 682 S. Vermont site was selected, you said, it was because it was the only site in your district that was available. When asked if there would be any public hearings your response was verbatim "[no, no, no, that is there is NOT going to be a public hearing where it relates to this, we are going to put a temporary facility here...](#)" (on my FB post, listen at 25 seconds).

The reporters found other publicly owned sites in CD10, as the following:

5032003903 4023 MARLTON AVE
4205035900 LA CIENEGA BLVD/BALLONA CREEK
5061014900 4600 W WASHINGTON BLVD
5071025903 4601 W WASHINGTON BLVD
5502025900 601 S VERMONT AVE.

When the Korean Media came back to you with the information that there is other City owned property available in your district, you changed your story and said it was because Koreatown had the highest concentration of homeless in your district, with 400 homeless. Initially, I thought you are probably correct with that statement since Koreatown has the second highest population density in the United States after Manhattan, NY. However, since there are 1,508 total homeless population in CD10 per 2017 LA Homeless Services Authority (LAHSA), I see the possibility of Koreatown not being the highest concentration of homeless in CD10, and since honesty is not your strong suit, we demand to see the actual numbers and locations of the homeless within CD10.

Tonight, as I write this letter to you as someone who supports a Temporary Homeless Shelter in CD10 where it makes the most sense, where there is the greatest need. Your numbers of homeless in CD10- Koreatown being around 400 is not accurate. Your office provided us numbers from LAHSA, which I am attaching as a copy that says that there are 368. HOWEVER,

after careful review of the map your office provided, I can see that the numbers for the Homeless are not all within CD10. Your reason for selecting the 682 S. Vermont as having the greatest concentration in your district is now being called into question.

The Koreatown community DEMANDS your office provide accurate numbers. We are tired of your antics of hide and divide. The vast majority of the residents and stakeholders in Koreatown are not opposed to a Temporary Homeless Shelter. We are opposed to your disrespect of the community and your thinking you can dictate whatever you want. We are concerned that "A Bridge Home" has not been given the DEEP DIVE that it deserves. We do not want another RecycLA fiasco which you admitted could have been handled better. We have lives at stake, the homeless as well as the residents and stakeholders, we need the City to have vetted all possible aspects so that we run an efficient and safe shelter for the homeless and their neighbors.

Mayor Garcetti and you stating that there will be 24/7 LAPD presence at the temporary homeless shelters, rather than give comfort, concerns me as another statement that is not viable, nor the best use of our LAPD officers' time. I would think professionals that are best equipped to provide services for the homeless should to be available 24/7, not police officers whom I think are better suited to protect and serve in a different capacity than watching over the temporary homeless shelters.

A Bridge Home, sounds like a great idea, why must you RUSH and LIE, to get it accomplished? Your providing your constituents with data should not be difficult. You are making the decisions of where to place the temporary homeless shelters based on facts and data sets, correct? If not, are they for arbitrary and capricious reasons that can not be justified?

Do the RIGHT THING, share the data, and stop trying to hide!

Sincerely,

Grace Yoo, Esq.

The census tracts above were mutually agreed upon by the above jurisdiction and LAHSA. LA Continuum of Care excludes Glendale, Pasadena, and Long Beach COCs.

Opt-In data may not equal the total for the city council districts, supervisorial districts, service planning areas, or the total Los Angeles Continuum of Care. The totals for these regions are statistical estimates.

* Unsheltered data combines homeless persons found outside with the estimate of persons residing in cars, vans, campers/RVs, tents and other encampments. Demographic survey interviews conducted with 4,946 homeless persons from January to February 2016 determined these estimates. Count does not include persons in domestic violence shelters. The data does not include unaccompanied minors, transitional age youth, and young families experiencing unsheltered homelessness.

** Sheltered homeless persons includes individuals, families, and unaccompanied minors sleeping in emergency shelter, transitional housing, or safe havens that are located within the boundaries of the community on the night of the Homeless Count. Any programs located within this area, including those in using vouchers to stay in motels and hotels will be reflected in the total.

Street Count data includes homeless persons found outside, including persons found residing in cars, vans, campers/RVs, tents and makeshift shelters. The following conversion factors were used to estimate the number of persons living in cars, vans, campers/RVs, tents and makeshift shelters if enumerators encountered homeless persons living in these environments. Individuals: Cars = 1.52, Vans = 1.77, RV's = 2.05, Tents = 1.69 and Makeshift Shelters = 1.92. Family Members: Cars = 2.96, Vans = 3.46, RV's = 3.52, Tents = 3.78 and Makeshift Shelters = 3.69. Demographic survey interviews conducted with 4,808 homeless persons from February to March 2017 determined these conversion factors for the average number of homeless persons in cars, vans, campers/RVs, tents and makeshift shelters.
