Hello !

Thank you for your time in reading this. The following are my thoughts on the following agenda items in regards to todays meeting. I usually would be a bit more formal but im behind on alot and im writing this whilst not being able to sleep.

*6 Preferential parking rules and procedures update -  

*7 traffic mitigation kimley horns report 5/18 -  

12 Regulation of ubers by way of permit

why ? What problems are we facing from them ?

I understand the high supply of drivers is degrading the cost per ride and the companies are driving the prices down to get more rides to the drivers but driving down price per ride is making drivers drive more and longer for same wage, and dramatically increasing vehicle costs.

What would regulation do to benefit the drivers and the riders ?

Ive also heard of malicious or deceitful intent of some drivers but in my experience everyones always been really nice

19 \$23M for 68 units ? Seems like alot for construction of one building Bldg 208

20 \$20M for 54 units ? Bldg 205

When item 22 is only getting 8 million

28 \$1M ? That better be a saucy pool

Is it inflation ? Whats causing it ? Why are prices rising so fast for products / services ? Is it a bubble ? Are we getting jacked ? Are we overspending ? Over budgeting ? Construction and land seems ridiculously inflated. Im witness to real estate market manipulation

Guess i would need to see the schematics of the individual projects to fully understand

I want to see more discussion
