

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

\* CIS stands for Community Interest Stakeholder

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

 \* CIS stands for Community Interest Stakeholder

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

\* CIS stands for Community Interest Stakeholder

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

\* CIS stands for Community Interest Stakeholder

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

\* CIS stands for Community Interest Stakeholder

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

\* CIS stands for Community Interest Stakeholder

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

\* CIS stands for Community Interest Stakeholder

9/1/08

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

\* CIS stands for Community Interest Stakeholder

9/11/18

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.

# Petition

To: Los Angeles City Council

We, the citizens of the great City of Los Angeles (and beyond), strongly oppose the City Council's recommendations for Neighborhood Council Systems Reform (Council File #18-0467, Item # 10c) to remove the "Community Interest Stakeholder" provision from the current bylaws, which allows non live/work/own stakeholders their well-deserved right to vote and to allow each Neighborhood Council to define their own Community Interest Stakeholder. We believe that recipients of language specific services, patrons of local businesses and members of community organizations should be included in the definition of a community interest stakeholder.
