Dear Adam,

I'm writing to your office as a resident of Los Angeles in **strong** support of Council File 18-0528 which would ban the sale and manufacture of fur products in Los Angeles. The City of Los Angeles has been a civic leader before in pursuing forward-thinking and progressive goals, and eradicating our City of the cruel and destructive fur trade should be one of those goals. There is no place for the fur trade in Los Angeles.

sincerely,
Jakub Tejchman
