support the ban on fur and fur products being sold and marketed in L.A. and any other venues you may have in your sphere of influence.

Animals are already EXTRA stressed and under attack by our current national administraiton, and this isnt being stopped as it should be at the federal level. Please rise above the human ability to cause animals pain.

Instead, please support the ban. Animals will benefit greatly, and humans have many other HUMANE options.  
Thank you, kim denise kruger
