Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to urge the city council to ban the manufacture and sale of fur in the City of Los Angeles, joining other progressive, forward-thinking cities like San Francisco, Berkeley, and West Hollywood.

I have serious concerns about the inhumane treatment of animals on fur farms. The fur that is sold within our city comes from sentient beings who suffer and experience pain. We cannot continue to tolerate an industry that profits off this kind of cruelty for such trivial ends in an era where science is showing us that animals have complex emotional lives.

We have the ability to make a wide variety of alternatives, even eco-friendly fashion made from recycled materials. Many of fashion's top designers are dropping fur from their collections, including Gucci, Michael Kors and Jimmy Choo.

Los Angeles has the opportunity to make a clear statement to the rest of the world that the confinement, torture and brutal killing for fur will not be tolerated. The fur industry has no place in our city. I therefore urge you to vote yes for a Fur Free LA.

Michael Espinosa,

Dear Los Angeles City Council Members:

I am a proud resident of Los Angeles and I am writing in support of Councilmember Blumenfield and Councilmember Koretz's proposed ban on the manufacture and sale of fur in our city. Fur products, whether from animals on fur farms or those trapped in the wild are a result of a cruel and inhumane industry. If we consider ourselves a progressive city of animal lovers, we cannot support their unnecessary suffering simply for the sake of fur. This legislation is in line with my values and this city's values.

For decades investigators have documented the extreme suffering of animals on fur farms. These animals live in unnatural and inhumane conditions only to be killed with no regard for their suffering. They are poisoned, gassed, electrocuted, or even skinned alive. There is no acceptable reason to support a business that is based on this kind of unjustified and unnecessary cruelty.

By putting an end to the sale of fur in our city, we would encourage creativity and alternatives. Los Angeles is a city of innovation, it is not a city that tolerates archaic and cruel practices even for the sake of the "livelihoods" of a few individuals who refuse to evolve to a changing marketplace.

It is time for us to join San Francisco, Berkeley, and West Hollywood and send a message that fur is over. I urge you to vote yes on this ordinance.

Sincerely,

Lindsay Mitchell

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

It's cruel evil an not necessary u don't need to wear fur it belongs to the animal1 message

Michael Espinosa,

Dear Los Angeles City Council Members:

The fact that there is still the unnecessary suffering of animals for fur fashion is deplorable, whether the animal involved is a cat, a dog, a coyote, a fox or a mink.

Opinion polls throughout the world continually show high levels of public disapproval of fur. This ban gives us an excellent opportunity to close our city to the cruel, unnecessary, outdated fur trade, and lead the way by making LA the fourth and largest city to ban the sale and manufacture of fur.

There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane."

Please vote YES for the LA Fur Ban and use your voice for positive change to make LA a more humane city.

Sincerely,

Susan Gooderham

Michael Espinosa,

Dear Los Angeles City Council Members:

I am writing to ask you to support the ban on the manufacture and sale of fur products in the city of Los Angeles. I was proud and excited to hear that the city is considering a ban on the sale of products from an extremely cruel and inhumane industry.

As you may already know, there is much evidence obtained by various animal welfare groups demonstrating cruel treatment suffered by animals such as foxes, rabbits, and mink. Many of our city's imports are from countries where animal welfare is not protected, and unfortunately we see similar violations even in countries with animal welfare laws. There can be no guarantee that the products offered for sale in our city, yet produced elsewhere are "humane." Animals across the industry are kept in tiny cages their entire lives and go insane from boredom and stress. Other animals like coyotes are trapped in the wild where they are separated from their children and endure days of suffering before they shot or bludgeoned to death.

Other California cities such as West Hollywood, Berkley and San Francisco already have bans in place. Los Angeles will be the largest City yet to have such a ban in place. As a fashion city we would be setting an example to the rest of the country and the world.

Thank you again for your strength to stand up for these animals and to work on behalf of our city. I also urge that all members of the city council vote in favor of the measure when the time comes.

Sincerely,

To: Adam.Lid@lacity.org

Dear Mr. Lid,

I am writing to you as a nearly 30 year resident of Los Angeles and a life-long animal lover, begging you to support Council File 18-0538. Let Los Angeles be the leader in this awesome way as it is in so many others.

If you are not moved by the unbelievable cruelty and suffering that the fur industry perpetrates against innocent, terrified animals (including domesticated species such as dogs, cats and rabbits) then please consider these vital environmental facts:

- Millions of pounds of feces are produced annually by U.S. mink farms alone. One dangerous component of this waste is nearly 1,000 tons of phosphorus, which pollutes nearby rivers and streams.

- According to The World Bank, the hazardous process of fur dressing (to keep the skins from rotting) is so problematic that the fur industry is now ranked as one of the world's five worst industries for toxic-metal pollution.

Thank you for your time, I hope that you will do the right thing and stand up for the billions of animals who suffer a horrendous life and even worse death each year.

Sincerely,

Connie Ashton
