Comments for Public Posting: I am a constituent in CD14 who has watched the Police Museum sit around as a publicly owned (and under used) resource for at least 20 years. It is time to change that status. Currently, the city of LA is allowing Rec and Parks to charge a fee to use our Senior Center to conduct the business of the all volunteer based advisory board, and committees of our Neighborhood Council, The HHPNC. We need the budget we have to fund other projects in our community of 60,000. Therefore, I believe it is time to save the thousands of dollars spent every year out of the meager NC budget by allowing the NC board and/or committees associated with the board, to have access to the Police Museum to conduct the district's meetings for free. A change in management of the Police Museum has been well received and now it's time to make it available for the community purposes. Thank you. Trish Gossett-CD14
