Re: Mayor Eric Garcetti's Proposed 2018-2019 Budget for the City of Los Angeles

Dear Councilmembers,

Public officials and City employees have a pattern of violating the law.

The pattern of fraud, waste and abuse and foreseeable harms and damages must be included in the City of Los Angeles 2018-2019 budget for the actual liabilities to the City of LA, stakeholders, and investors.

Harmed individuals cannot file a complaint regarding corrupt activities in public offices because law enforcement refuse to take crime report, provide report number, and investigate.

The refusal of law enforcement and public prosecutors to acknowledge complaining persons' harms and to investigate complaints of violations of law does not mean that the violations do not exist.

As you know from my previous writings and public comments to LA City Council and LA Council Committees, Public Officials and employees know of their pattern of violating City and State codes, rules, regulations, ordinances, the Constitution, collectively "Laws" but refuse to correct, therefore not error or mistake.

The City of Los Angeles, Officers, and public employees pattern of violations of Laws, include, but are not limited to,

- 1- The destruction of the laws that govern the California Coastal Act in City of Los Angeles (see ex 1).
- 2- False and fraudulent documents and inconsistent documents submitted to public offices.
- 3- Deception of the People's rights to notice, due process, and public hearings.
- 4- Failure to notify of hazards known to City of LA, but concealed from the public and property owners.
- 5- Failure to repair public sanitary sewers and storm drains in fault areas, landslide and hazard areas.

It was wrong for Public Officials and employees to bully me while I attempted to obtain public records. The People have the right to know public truths, but Government Officials and employees have obfuscated, omitted, hid, and told falsehoods about public truths and supporting documents known to the City of LA.

While trying to protect my property through government processes, I learned that many other people and their properties were being subjected to same or similar obfuscations, omissions, concealments, and failures. City Councilmembers and the Mayor have refused to meet with me as I uncovered the deception and falsehoods. Under duress, I see no other choice but to post the findings on twitter through my account @LiaInLA.

I respectfully demand that you stop public corruption and provide budget for the harms.

Sincerely,
Lia Renee Memsic
334 Aderno Way, LA, California, 90272
