NOTES / INSTRUCTION(S):

Actions for the City Council:

The City of Los Angeles finds, upon a review of the entire administrative record, including the SCPE No. ENV-2016-3631-SCPE, and all comments received, that:

- The Proposed Project qualifies as a transit priority project pursuant to Public Resources Code Section 21155(b), which by definition means that the Proposed Project is consistent with the general use designations, density, building intensity, and applicable policies specified for the project area in the Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) prepared by the Southern California Association of Governments (SCAG) pursuant to Public Resources Code Section 21155(a); and contains more than 50% residential; provides a minimum net density greater than 20 units an acre; and is within one-half mile of a major transit stop or high-quality transit corridor included in a regional transportation plan per PRC Section 21155(b);
- Finds that all criteria in 21155.1(a) and (b) are met, including environmental criteria, land use criteria, and at least one criteria (affordable housing) in PRC Section 21155.1(c) are met.

Therefore, the City of Los Angeles finds that the Proposed Project qualifies as a transit priority project that is declared to be a Sustainable Communities Project and is therefore exempt from CEQA, in accordance with PRC Section 21155.1.
