Item Number: 9.F

Summary: WANC is specifically concerned that FAA is allowing LAX bound airlines on their eastern bound flight path to fly under their own minimum altitude specifications. We would like the FAA to enforce these minimum altitude requirements. This CIS is relative to language in the fourth paragraph in the original motion regarding LAX. WANC is concerned about negative health impacts associated with the FAA's NextGen and is also in support the official action and resolution under Council File 18-0002-S43.
