Re item 18-1160:

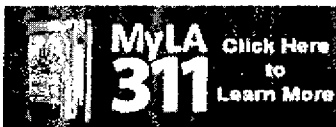

This action will make it difficult for the public to access police stations, to file a report, make inquiries or perform administrative transactions. It would be better to have these areas marked, "Parking while visiting LAPD facility only," or something to that effect.

The LAPD motto is "To protect and serve," but this motion seems only to protect and serve the convenience of the LAPD, not the citizens they are supposed to be serving.

Thank you,  
Janis Purins
