Comments for Public Posting: I most strongly support the resolution asking the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws. Dogs are superior companion and service animals--they are not meant to be eaten. It is time that China and its Asian neighbors display moral leadership by taking action to once and for all end the cruel and barbaric dog meat trade.

Comments for Public Posting: I am so pleased to see that this horrific cruelty may be stopped soon. I stopped eating meat years ago because of the cruelty meted out to animals before being fed to people. I cannot understand why people do not see that animals are sensitive beings, like ourselves, feeling fear, pain and love for one another. We must stop torturing and killing animals, it is inhumane and cruel. Meat will always be eaten by those that choose to do so but at the very least the animal should be respected with a kind death. To kill and eat what could become the most wonderful family companions is so wrong. There is no evidence that animals provide any sort of medicine that actually works to help humans with ailments. Please help us stop this suffering which keeps us awake at night and in tears during the day. Thank you.
