Comments for Public Posting: I implore you to demand the governments of China, Vietnam, South Korea, Cambodia, and Indonesia to ban the sale of dog meat and to enforce their animal cruelty laws in support of Councilmember Bob Blumenfield and Councilmember David Ryu, one of the most influential Korean American office holders in the country." South Korea's "very close ties to Los Angeles" and the Los Angeles sister city - Busan. We have campaigned to urge Los Angeles to speak out against the cruelty of its sister city and other friendship cities in Korea. Click [HERE](#) to see our campaigns. According to the Animal Welfare Institute (AWI) and other sources, approximately one to two million dogs are killed for food every year in South Korea. Prior to their deaths, these dogs endure a lifetime of abuse and are often slaughtered in a completely inhumane and brutal manner. As stated by AWI: "From birth to slaughter, these dogs are kept in cramped, rusty cages stacked on top of each other. The method of slaughter is usually extremely (and even intentionally) brutal, and the dogs are often butchered in full view of the others." "Most horrifically—due to a traditional belief that high adrenaline levels will produce tender meat and increase the supposed health benefits—dogs who are killed may be intentionally subjected to extreme fear and suffering and be killed via bludgeoning, hanging, or electrocution. At the open-air markets, dogs are often electrocuted and their necks are broken—all in plain sight to passers-by and the other dogs."

Comments for Public Posting: 06/23/2019 Dear Honorable Mayor and City Council of Los Angeles, please convey to the Asian nations that torture and eat dogs and cats the following short message from me in your official correspondence to these heartless and cruel nations. Dogs/cats are companions to people. Dogs/cats visit sick people in hospitals. Dogs help walk blind people. Dogs help the military and law enforcement. Dogs/cats feel pain and dream in their sleep. Dogs/cats are NOT food. Perhaps we should suspend military aid to South Korea???? Increase tariffs on ALL Asian countries that torture and consume dogs and cats, not to mention horses???? ----- Stephen Zaharias, Lompoc, CA.
