Comments for Public Posting: We urge all of our elected representatives to vote a resounding NO on this proposal. It is an unprecedented intrusion of privacy that does nothing to advance healthcare delivery that is so vital to the survival of our city. It is humiliating to work in a system that holds healthcare providers liable to the strictest standards of security, confidentiality, and privacy through HIPAA, while at the same time aims to erode these very protections from those who deliver healthcare. Let's keep one standard of privacy for everyone, and steer clear of voting for legislation that violates the integrity of protections ALL OF US deserve.
