**Council File No:** 19-0104

**Comments for Public Posting:** I don't understand why everyone keeps saying CHP says these signs are illegal on taxis. I've gone through every posted file on the system and I can't find any backup information to support this claim. If Bonin, Blumenfield and the City Attorney (and strangely Patrick Frank) are the only ones citing this "evidence" then there is a full lack of transparency for the general public, or the claim being made is simply not true. It's time to unveil this secret document, if it even exists. I call on the city to make this evidence available to the public.
