Please vote Yes for anything you can do. I know it seems like an impossible situation but you must try. My sister and my niece and 2 nephews and their innocent children live in and around Calabasus. I myself grew up in Sherman Oaks. I'm afraid to go to my high school reunion at Woodland Hills later this year. My own child years ago died of leukemia. It's nothing until it happens to you. I'm so afraid for my family and my sister's kids and their kids. Anything will help. Really I think its terrible to worry about wildlife and parklands when people are going to die. But that's another bill I guess. Please do what you can to alleviate this nightmare. The whole thing (Santa Susana Site) SHOULD have been paved and cemented over in my opinion.

Sandra Harber
