Comments for Public Posting: This is a crazy motion by Mike Bonin. The LA Sanitation Watershed Environmental Protection Division are the guys who disinfect and clean our 3rd st encampment by Google, Public Storage and Gold's Gym in Venice Beach. The clean up crew have told me they get death threats for doing their job! The LAPD has always done a fine job in protecting them while they do the necessary clean up that helps reduce diseases outbreaks in our high density residential area of Venice Beach. This encampment also has a rodent problem with dozens of nests by the fence line separating Google and the tent campers. I have ask the Mayor and our Councilmember Mike Bonin to give us rat proof trash cans at the famous Venice Town Hall Meeting last Oct. As to date no rat proof trash cans have been delivered to 3rd. I understand the \$6000 type of Rat Proof Trash Cans were delivered by Mike's House in Mar Vista. We are not asking for \$6000 solar panel ones that Mike has just any rat proof trash cans will do. This 3rd Ave block is a pollution disaster waiting to happen for these Serial Poopers (Mental Illness related to Anxiety) won't use the 24/7 bathrooms and are defecating next to our storm drains which flow on our beach and playground! This camp should be off limits to camping for the Public Storage has a dumping problem which increases the probability of major disease outbreaks as per the LA County Health Dept Vector Management Guidelines for controlling Norway Rats published years ago. Here is their bulletin published on the internet before the DTLA City Hall/Police Station Rat, Flea and Typhus outbreak...http://www.publichealth.lacounty.gov/eh/docs/Specialized/Vector_Management/norway_Rat.pdf Also to see some of the Marine Environmental pollution the residents of Venice Beach have endured for the last 3 years please go to my site at <https://www.facebook.com/illegalDumpingVeniceBeach2016/>
