Comments for Public Posting: I strongly disagree with the restrictions proposed for section 41.18(d) of the LAMC. While I understand the impetus and agree something must be done about the overwhelming unhoused population, the ramifications of these restrictions are just devastating to people who are already facing extreme economic hardship and desperate circumstances. I would like to see the city take a more empathetic approach and include those who understand the houseless population. I do not think these restrictions will improve the safety of schools/public parks and will only serve to harm an already vulnerable population.
