

## Communication from Public

**Name:** BEN Quinn

**Date Submitted:** 10/18/2019 08:31 AM

**Council File No:** 19-0602-S1

**Comments for Public Posting:** I support this amendment. I live near a school and have 3 young children. Unfortunately, the homeless encampment near me begats all kind of criminal behaviour. My children are regularly confronted by drug use and discarded syringes, men exposing themselves whilst urinating and defecating on my property and openly masturbating. These issues are different from the homeless issue. Children should not be exposed to this whilst walking to school. I fully support this legislation and support any further consideration for government run drug rehabilitation schemes and building of shelters and accommodation to address the homeless issues.
