Council File Number: 19-0668

Agenda Date:

Item Number:

Summary: The Greater Valley Glen Council opposes creation of an ordinance allowing for the construction and use of low voltage electrified security fences within the City as proposed in Council File 19-0668. Such fencing is not foolproof, and evermore effective electronic intrusion alarm systems are alternatively available and come without possible liability claims on the City. In the absence of presentation of an independent study, we do not believe that such electrified fencing will significantly, if at all, free up police resources for other needs.
