## **DISCUSSION**

This is the 24th year of funding for Operation ABC. The grant award will provide continued funding for the Citywide implementation of Operation ABC for Fiscal Year 2019-2020. Operation ABC is a comprehensive enforcement and prevention effort to identify disorderly outlets, reduce ABC violations and alcohol-related crimes, and to address the ABC-related quality of life issues. This project will include a wide range of strategies, including training, education, and planning.

With over 6,300 ABC licensed locations, the City accounts for 32 percent of all licenses in Los Angeles County, more than all other counties statewide. In addition, the immense population of Los Angeles and a shortage of police officers make it difficult to oversee and maintain compliance with all ABC locations. Operation ABC will continue its focus from one centralized office that collects and exchanges information for government and community purposes, provides training to all stakeholders and conducts enforcement operations to reduce the recurrence of alcohol-related problems Citywide.

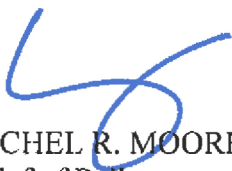

The LAPD will continue current efforts by replicating effective practices and expanding upon proven methods such as Standardized Training for Alcohol Retailers, Shoulder Tap, Minor Decoy, and Drunk Decoy. Since the project was initiated in 1996, Operation ABC has closed more than 89 non-compliant outlets, which has had a corresponding positive impact on the quality of life in the surrounding neighborhoods. Another area of concern is the number of new licenses being issued in Los Angeles. The Responsible Retailer Program continues to be a successful tool utilized by the Los Angeles Zoning Administration as a mandated requirement for new licensees to obtain their zoning permit to sell alcohol.

The funding from the Department of ABC will enable the LAPD to continue to work closely with the Planning Department, Department of Building and Safety, Fire Department, and the Los Angeles County Public Health Department to enforce a broad range of code violations. The LAPD will also continue its partnership with the City Attorney's Citywide Nuisance Abatement Program (CNAP) and the Community Problems Unit. The partnership with CNAP continues to allow Operation ABC to investigate ABC violations effectively, along with narcotic violations occurring within problem ABC outlets.

The grant award budget includes \$65,707.50 for the salary of a Police Sergeant II; \$29,292.50 for sworn overtime; \$2,500 for equipment and \$2,500 for mandatory travel to attend conferences convened by the State Department of ABC.

## SCOPE OF WORK

### 1. Summary

The City of Los Angeles (City) is populated with more than 4 million residents. Since 1980, population growth has increased by over 35 percent. Los Angeles has an extremely diverse population consisting of 49 percent Hispanic, 29 percent Caucasian, 11 percent Asian/Pacific Islander, 9 percent African American, and 2 percent Native American/Other. While 17 percent of the total population of Los Angeles fall below the federally determined poverty line, some neighborhoods, identified in the 2019/2020 proposal, approach a 37 percent poverty rate. Unemployment, homelessness, and related problems, such as alcohol and substance abuse, are among the City's challenges. Urban blight continues to remain visible in some neighborhoods and is often associated with disorderly ABC-licensed locations.

The Los Angeles Police Department (LAPD) is a full-service organization providing emergency response, crime suppression, investigative functions, and traffic control for a 468 square mile area. As of February 2019, the LAPD has 10,015 sworn officers and 3,169 civilian employees who provide support services for uniformed and plainclothes personnel. The LAPD's sworn strength to population ratio (2.5 officers per 1,000 population) is among the lowest in the nation. A five-member Police Commission provides oversight over the LAPD's policies and procedures. The LAPD's administrative structure consists of the Chief of Police and offices immediately accountable to the Chief. The City is divided into four geographical bureaus: Central, South, West, and Valley, that provide police services in their respective communities. Each bureau is subdivided into four to seven Areas (for a total of 21 Areas citywide), administered by captains. Each Area has a small vice enforcement component responsible for ABC enforcement in addition to other vice-related duties.

As of February 2018, the City has **6,316 ABC-licensed locations - 3,052 off-sale and 3,264 on-sale** - with an estimated 45,000 individuals employed in the retail distribution of alcoholic beverages. The number of Alcohol Beverage Control (ABC)-licensed establishments in the City accounts for seven percent of the total number of licensed locations statewide and 32 percent of all licenses in Los Angeles County. The goals and objectives of LAPD Operation ABC, listed below, focuses on ABC enforcement and education. Activities include: managing ABC enforcement operations on a citywide basis, the collection and exchange of information for government and community purposes, and providing specialized training to community stakeholders. These efforts will reduce the recurrence of alcohol-related problems citywide. Due to the high volume of ABC establishments, the LAPD is requesting the maximum funding amount of \$100,000.00. This will fund 50% salary for a full-time Sergeant II position and 312 overtime hours to conduct training and enforcement operations.

### 2. Problem Statement

Within the City's 468 square mile area, there are several neighborhoods where there are a high density of both population and ABC-licensed premises. These continue to create significant ABC-related policing problems for the LAPD; 49 percent of all formal complaint investigations conducted by Area Vice Units involve an ABC-licensed establishment. Los Angeles has more than 500 nightclubs; 150 of these clubs can serve over 500 patrons at a time. As many as 100,000 patrons could potentially frequent any of the 3,264 on-sale ABC establishments. Bars serving intoxicated patrons can increase the potential of intoxicated drivers on busy freeways and surface streets. Because of community concerns, 10 ABC-licensed premises are currently the subject of formal abatement investigations. Additionally, the numerous special events held at Dodger Stadium, Los Angeles Coliseum, Staples Center, and the LA Live Entertainment Center that houses 32 ABC-licensed locations, significantly surge the adult drinking population.

In addition to the maintenance of an extremely effective ABC enforcement and education program, of continued concern are the problems associated with illegal solicitation of alcoholic beverages inside on-sale licensed premises (§§303a PC and 25657a/b B&P). This activity encourages intemperance and contributes to Part I and II crimes and drains the LAPD of its limited policing resources. In the past year, Olympic Area has experienced a myriad of issues in dealing with 10 Koreatown on-sale ABC-licensed Karaoke bars, notorious for promoting the illegal solicitation of alcoholic beverages. Olympic Area has had a notable increase in karaoke businesses that are operating without an ABC license. Those unlicensed establishments also promote illegal alcoholic beverage solicitation schemes, along with after-hours service and consumption of alcoholic beverages. Operation ABC and the Department of ABC have assisted Olympic Vice in conducting investigations at the 10 Koreatown locations. However, this illegal activity continues to manifest problems for the surrounding community.

The LAPD has placed considerable emphasis on combating illegal alcoholic beverage solicitations throughout the City. During the 2018/19 ABC grant year, Operation ABC expended more than 350 personnel hours investigating problems related to soliciting alcoholic beverages inside on-sale locations; it is anticipated that an equal number of personnel hours will be expended during the 2019/20 grant period. During this period, 20 licensed locations were the subject of alcoholic beverage solicitation investigations resulting in 48 arrests. On a citywide level, more than 30 licensed locations have been identified by Area vice personnel as being involved in promoting this activity. During the past six ABC grants, investigations at 95 ABC locations have resulted in 470 arrests for crimes relating to the illegal solicitation of alcoholic beverages. These investigations are extremely complex and require officers who are well trained and versed in the nuances of the activity to obtain criminal and administrative filings.

To continue our efforts of reducing the availability of alcoholic beverages to underage individuals, the LAPD must rely on a combination of enforcement and education. Minor Decoy, Shoulder Tap and Trap Door operations in combination with community outreach will aid in preventing minors from having access to alcoholic beverages. During the 2017/18 grant year, while inspecting 626 licensed ABC locations, the LAPD achieved a very respectable 87 percent overall compliance rate regarding minor decoy operations. LAPD conducted 49 Shoulder Tap operations along with four Trap Door operations. LAPD Operation ABC will continue to conduct Trap Door operations at ABC-licensed establishments near local college campuses to combat the growing problem of minors utilizing counterfeit ID's to purchase alcoholic beverages.

The Standardized Training for Alcohol Retailers (STAR) educational program continues to be in high demand by retailers seeking ABC training from subject matter experts. In the 2018 calendar year, Operation ABC conducted 223 presentations with a total attendance of 7,552 individuals. This represents a 15 percent increase in the number of presentations and a nine percent increase in attendance in comparison to 2017. The increase in presentations is directly attributed to the STAR Corporate Partners program, which has become a core component of the LAPD's ABC training vehicle and should be expanded during the upcoming grant period. A modification of the Responsible ABC Retailers program, the STAR Corporate Partners program promotes responsible beverage training and formally recognizes corporations for their training commitments. In recent months, the Four Seasons Hotel and Trader Joe's joined the ranks of STAR Corporate Partners.

Operation ABC will modify the current STAR training program to meet the new standards set forth by AB 1221. This grant will enable the LAPD to continue to offer STAR Training in English and Spanish. For the past several years, LAPD was the only agency to offer bilingual ABC training in Southern California.

By participating in community events, Operation ABC will be able to reduce alcohol-related crime by alerting at-risk adolescents to the problems associated with alcoholic beverage consumption. By attending college and high school events, it can optimize impact and interact with students who are most likely to experiment with dangerous drinking patterns. In combining the above preventive approach with traditional enforcement operations (Minor Decoy, Shoulder Tap and Trap Door operations); Operation ABC will continue to be very proactive in their efforts to reduce the availability of alcoholic beverages to underage individuals.

The size of the City as it relates to sworn personnel continues to hamper consistent code enforcement and successful control of ABC problem premises. The emphasis on patrol functions, while important to community policing, reduces the number of officers in the LAPD's Vice Units, affecting ongoing enforcement, as well as the units' ability to undertake more proactive and preventive measures. The Alcoholic Beverage Control Grant will allow Los Angeles to continue Operation ABC citywide and ensure its consistency with the ABC's 1997 Strategic Plan.

### 3. Project Description:

The LAPD Operation ABC will continue with the grant-funded Sergeant II position as well as the LAPD-funded Sergeant II position; each focusing 100 percent of their time on alcohol-related issues. Goals and objectives will focus on ABC enforcement and education programs on a citywide basis. The proposed LAPD Operation ABC project is a comprehensive enforcement and prevention effort designed to reduce ABC violations and alcohol-related crimes; thereby enhancing the quality of life in our many business and residential communities. This proposal includes a wide-range of strategies, including training, education, planning, and enforcement. **Training** will focus on ABC-licensed establishments and their employees, police department employees, as well as public service organizations involved in alcohol-related issues. **Education** will include the maintenance of LAPD Operation ABC webpage, a training vehicle allowing law enforcement personnel on a statewide level the ability to obtain investigative expertise by reviewing enforcement specific articles via the internet. The continued maintenance of an online presence will allow the ABC retail community direct access to unit personnel. This access has proven vital in keeping the retail community abreast of training opportunities and as a conduit to respond to their many concerns. **Planning** will focus on issuance of ABC-licenses, conditional use permits, and the impact of alcohol establishments in Los Angeles. Lastly, **Enforcement** will focus on ABC enforcement operations, minor and shoulder tap decoy operations, intoxicated service and disorderly house/abatement investigations. The project will allow for the continuation of LAPD's efforts to combat the many problems associated with the illegal solicitation of alcoholic beverages inside on-sale licensed ABC premises. LAPD also proposes to purchase new equipment to aid in the educational efforts through the enhancement of training presentations and enforcement operations.

### Project Goals:

1. Identify disruptive retail alcoholic beverage outlets throughout the City of Los Angeles for Disorderly House investigations.
2. Increase ABC-licensee education and modify the STAR Training program to comply with AB1221.
3. Continue to develop innovative methods to effectively manage ABC-related problems (criminal and administrative violations).
4. Continue to enhance partnerships with corporate business operators committed to promoting responsible ABC sales and services.

5. Continue to enhance the online training vehicle to provide law enforcement personnel on a statewide level access to ABC training material.
6. Publicize the program and enlist community support with alcohol-related problems.

#### **Project Objectives:**

#### **4. Project Personnel**

Operation ABC is staffed by a Project Director, Sergeant II Lifermando Garcia and the Project Coordinator, Sergeant II Craig Nollner who are assigned to Detective Support and Vice Division. Sergeant Garcia has 29 years of experience with the LAPD (11 years coordinating alcohol enforcement and educational programs within Operation ABC). Sergeant Nollner has 26 years of law enforcement experience with 6 years in vice assignments and three years coordinating alcohol enforcement programs within Operation ABC. Sergeants Nollner and Garcia have received specialized training in ABC law and enforcement strategies, have extensive teaching experience and are ABC instructors at the LAPD's Vice School. The Project Director and the Coordinator are responsible for day-to-day implementation of this project. Due to their training and enforcement experience, Operation ABC supervisors have developed a certain level of expertise that is needed to investigate disruptive licensed establishments due to the complexity of ABC law.
