Council File Number: 19-0846

Agenda Date:

Item Number:

Summary: Community Impact Statement from Wilshire Center-Koreatown Neighborhood Council in SUPPORT of LA City Council File 19-0846: Installation of Hydration Systems / Small Business Incentive Program In these days of impending climate change, we need to take every possible measure to reduce waste and consumption. Reducing plastics is a must. We applaud the City of LA's efforts to do this by adding hydration stations at municipal facilities. We agree that this program needs to be expanded into all public spaces and schools. Additionally, having potable water available to the community will give dignity to our unhoused neighbors. The lack of accessible drinking water can be life-threatening to everyone, especially those exposed to the elements. Incentivizing small businesses is an excellent way to bolster this effort. Giving incentives to small businesses would assist with the cost of installing the hydration stations while helping the owners absorb any lost revenue from the sale of bottled water. Wilshire Center-Koreatown Neighborhood Council SUPPORTS LA City Council File 19-0846 as written. Respectfully Submitted, Wilshire Center-Koreatown Neighborhood Council
