Stoney Point Estates

Dear Councilmembers,

I would like to address an issue that is coming up before you regarding the gates to enclose my residence along with my 15+ other homes in my community as well as the new neighborhood of 15 additional homes that will be built across my street.

The builders have discussed building that security gate in which all the residents will utilize its benefits such as safety and security for my family (wife and young daughters).

I live on the furthest lot east (lot 1) and adjacent to Old Topanga RD (Hwy 23/Topanga Canyon Bl) and have experienced many unsafe and suspicious activities.

My wife's car parked in our driveway has been ransacked.

A homeless man with possible mental health issues entered and tried to start my daughter's car with his own key after she stepped away to take groceries into the house. The police were called and took away that person.

Items in my front yard and back yard has come up missing.

My water-hose stretched out – my family did not do this.

Suspicious activity in front of my home – day or night multiple people or cars we have not recognize are stopping, never exiting but leaving shortly and sometimes very long thereafter. I am unable to determine if illegal activity is occurring.

Illegal long-term parking of broken-down vehicles from the highway.

I could list many other incidents, but my family's safety and security is extremely important.

Please keep my concerns in mind as you make your decision.

Thanks Glenn.
