5G Street Lighting Districts.

Again. Dangerous implications if not responsibly implemented or overseen (that I'm not ok with). There's necrosis forming in the tree of my dad's house in the line of sight/pathway of emission from the 5G transmitters down the street. I won't stop rebuking this until someone connects me to the FCC or whoever is responsible for this impending health and safety disaster so that I can ensure that it is implemented properly and responsibly.
